Sun Life Assurance Society.—*Managers:* M. R. Pryor (Chairman), Hon. W. H. Goschen (Deputy-Chairman), F. Chaplin (Vice-Chairman), Visc. Castlereagh, M.P., E. Dent, Lord Faber, A. Farquhar, E. C. Grenfell, Sir R. B. Martin, Bart., Hon. A. H. Mills, Sir H. C. Montgomery, Bart., R. C. S. Murray, Lord H. Nevill, F. H. Norman, Hon. C. L. Sclater-Booth, Lord H. A. M. D. Scott, D.S.O., and C. W. Tomkinson. *Secretary and General Manager:* E. Linnell. *Actuary:* R. G. Salmon. *Office:* 63, Threadneedle Street, E.C.—The society was founded under act of parliament in 1810. A new act of parliament which repealed existing acts was obtained, and new laws and regulations were adopted in 1889; in 1897 the Sun Life Assurance Company of India, Limited, was absorbed, and as from January 1, 1906, the life business of the Patriotic Assurance Company. The subscribed capital is now £480,000 in fully-paid shares of £10. The shares were originally of £100 each, but in 1889 each share was subdivided into ten.

The accounts are made up annually to December 31, and submitted in February, dividends, being paid on January 1 and July 1. The assets and liabilities are revalued quinquennially. It having been decided in 1899 to give a larger share of the profits to new policy-holders, the surplus is now divided into three parts, the portion allocated to policies effected on or before June 24, 1850, being distributed in equal proportions between the shareholders and the policy-holders; the portion allocated to policies effected after June 24, 1850, and before January 1, 1897, being divided in the proportion of one-fifth to the shareholders and four-fifths to the policy-holders; and the portion allocated to policies effected after December 31, 1896, being divided in the proportion of one-tenth to the shareholders and nine-tenths to the policy-holders. It was formerly the practice to pay half-yearly dividends, with a bonus at the end of each quinquennial period, but on the completion of the valuation to December 31, 1906, it was decided to distribute the portion of the profits accruing to the shareholders in respect of the quinquennium in half-yearly instalments in addition to the dividend, and this method of distribution is being continued. Recently the dividends have been 5 per cent. per annum, and from July, 1907, to January, 1912, both inclusive, there were in addition half-yearly distributions at the rate of 8s. 6d. per share per annum as a result of the quinquennial valuation to December 31, 1906, while in respect of the valuation to December, 1911, the half-yearly bonuses have been raised to 10s. 6d. per share per annum (commencing in July, 1912), so that the total distribution now being made is £1 per share per annum (free of income tax) in equal instalments in January and July. Life assurance fund to December 31, 1914, £9,278,833; annuity fund, £1,633,349; sinking fund and capital redemption fund, £1,590,084; accident and general fund, £11,583; accumulations (proprietors' fund), £59,755.

Under the Electric Lighting Acts of 1882 *and* 1888, *where any undertaking has been authorised by a provisional order or special Act to supply electricity within any area, any local authority within whose jurisdiction all or any part thereof is situated may, within six months after the expiration of a period of forty-two years from the date of the passing of the Act confirming the provisional order or of such special Act, and within six months after the expiration of every subsequent period of ten years, compulsorily purchase such undertaking on paying the value of all lands, buildings, works, material and plant, "but without any addition in respect of compulsory purchase, or of goodwill, or of any profits which may or might have been or be made from the undertaking, or of any similar considerations." The periods after which the local authorities may purchase are subject, however, to there having been no special stipulation in any provisional order or in any special Act.*

Antwerp Water Works Company, Limited.—*Directors:* G. Evans (Chairman), W. H. Blaber, Col. E. M. Filgate and J. Kennedy. *Secretary:* J. M. Hamilton. *Office:* Suffolk House, Laurence Pountney Hill, E.C.—The company was registered December 1, 1880, to acquire a concession from the city of Antwerp. The concession is for a period of fifty years from July 1, 1881, when the properties will revert to the city without payment, while the city is (now) entitled to redeem the concession at any time by paying the company the profits of the years remaining to run, calculated on the average profits of the five years immediately preceding such redemption, with a proviso that such profits shall not be less than 5 per cent. per annum. The company has effected a policy of insurance (on which the premium is payable annually) with the Sun Life Office for the purpose of securing the repayment of the share capital at the expiration of the concession. The capital is £300,000 in fully-paid shares of £20. There are also 4 per cent. first debentures of £100 each for £200,000 (the total authorised), of which £130,000 was issued in May, 1911, at 97½ per cent., partly with a view of redeeming pre-existing 3½ per cent. debentures for £96,200, and the balance since; the debentures are secured by a trust deed as a first fixed and specific charge on the concession, and all redemption and other moneys to become payable to the company in the event of the city of Antwerp redeeming the concession; and the company has assigned to the trustees for the debenture-holders the above-mentioned sinking fund policy: interest is payable January 1 and July 1, and the debentures are to be repaid at par September 30, 1931, but the company has reserved the right to redeem all or any of the debentures at par on or at any time after July 1, 1916, on six months' notice, and also the right at any time to purchase debentures in the open market.

The accounts are made up annually to December 31, and submitted in March, but an interim report is usually presented in September. For 1903 7 per cent. was paid; for 1904, 7½; for 1905, 8; for 1906, 8½; for 1907, 8¾; for 1908, 10½; for 1909, 11; and for 1910, 1911, 1912 and 1913, 12 each year (free of income tax); and for 1914, nil. In their report for the year 1914, submitted in March, 1915, the directors stated that "owing to the outbreak of the war, the auditors were unable to visit Antwerp for the half-yearly audit, and therefore no profit and loss account can be prepared. The company's business is being carried on in a fairly normal manner, and water rentals are being collected, but of course on a greatly reduced scale. No direct communication can be had with Antwerp, and so far it has not been possible to remit money to London. No accurate estimate can be made of the amount of damage done to the works, but it is certainly not so serious as the board at first feared." Reserve funds, £57,908; sinking fund for amortisation of the share capital at the end of the concession, £87,437 (this is represented by the sinking fund policy referred to above); sinking fund for redemption of the 4 per cent. debentures, £29,136.

At a meeting of debenture holders held on October 15, 1915, certain modifications of the provisions contained in the trust deed were sanctioned with the object of authorising the company to postpone payment of the premiums on the sinking fund policies falling due from August 25, 1915, to the expiration of six calendar months after peace shall have been declared between England and Germany, until the expiration of such period, and of raising money on one of the policies for the purpose of providing moneys to pay the interest which will become payable on the debentures during the period named, and paying the premiums on other policies. The amount required to meet debenture interest due January 1, 1916, is already in hand.

Voting power, one vote for each share. Director's qualification, 25 shares. Transfer form, common; fee, 2s. 6d. per deed. Telegraphic address, Sevandilha, London. Telephone number, 1548 Central. The company is quoted in the official list.

City of Las Palmas Water and Power Company, Limited.—*Directors:* J. Jackson (Chairman), B. de la Torre (Las Palmas), M. Curbelo (Las Palmas), H. R. Ford and Sir D. Fox. *Secretary:* P. Shepherd. *Office:* 67, Cornhill, E.C.—The company was registered February 3, 1913, to acquire a concession for the supply of water and electricity to the City of Las Palmas, Canary Islands. The concession, which was granted by the municipality of Las Palmas, is for a period of sixty years from the inauguration of the services of water and electricity, and during the period named the municipality is to guarantee a minimum net profit of 312,500 pesetas gold (say £12,500 per annum), and gives the sole right for the supply of water to the city and harbour "at fixed remunerative rates." Special facilities are granted for the collection of the water rates; and the company will be exempt from all municipal taxes during the period covered by the concession, at the expiration of which period the entire undertaking will revert to the municipality free of cost. The concession also authorises the use of the power (equal to about 1,000 h.p.) in the water falling about 4,000 feet, for the generation of electricity, with a tariff of 75 centimos per kilowatt hour for lighting, and 30 centimos per kilowatt hour for power. In 1915 certain modifications were agreed to with the municipality (see below). The authorised capital is £125,000 in shares of £1, of which £97,533 has been issued as fully paid, £47,800 to the vendors. In May, 1913, there was offered for sale by the London City and Midland Bank, Limited, Threadneedle Street, E.C., the Bank of British West Africa, Limited, 17-18, Leadenhall Street, E.C., and Messrs. Hoare, 37, Fleet Street, E.C., on behalf of the purchaser (the British, Foreign and Colonial Corporation, Limited, 57, Bishopsgate Street, E.C.), £237,000 5 per cent. first mortgage debenture stock at the price of 93 per cent.; interest is payable March 1 and September 1 (that due September 1, 1915, was not paid), and the

stock is repayable by annual drawings at par, or by purchase in the open market, or otherwise, by the operation of a cumulative sinking fund, commencing December 31, 1915, calculated to redeem the whole of the stock during the life of the concession, while the company has reserved the right, on giving six months' notice, to repay at 102 per cent. the whole or any part of the stock after January 1, 1916. The stock is secured by a trust deed constituting it a first specific charge upon the concession, and all lands, buildings and plant capable of being so charged. The trust deed provides that no other debenture stock can be issued ranking in priority to or pari passu with the present debenture stock, without the consent of the trustees, and an increase in the municipal guarantee sufficient to cover the interest and sinking fund of such further debenture stock, so that such stock is redeemed during the life of the concession. Allottees of the debenture stock were entitled to receive, after payment of the final instalment, a bonus of fully-paid shares of the company at the rate of one share for every £20 of debenture stock.

A contract was entered into providing for the construction of the waterworks and electric generating stations in accordance with the conditions of the concession, the contractors undertaking to complete the entire works within one year and ten months from the commencement of construction (June 19, 1913, since extended). In a circular issued in August, 1915, the directors, in referring to the default of the payment of the debenture interest due September 1, 1915, detailed the circumstances which had led up to this default. From the time when the company started operations in Las Palmas it had met with a strong local opposition, which involved long delays in the carrying out of the works; it therefore became necessary to apply to the municipality for an extension of time to complete the works, which was granted, subject to certain modifications in the plans. These modifications involved increased expenditure, but the contractors have agreed to execute the contract in its altered shape and to guarantee its completion within the time limit (April, 1916) for the price of £170,000, instead of £125,000 as originally contemplated. The contractors are willing, under certain conditions, to provide the extra money on condition that the company will issue prior lien bonds, with a certain margin of cover; permission has been given by the Treasury to make an issue of prior lien bonds, and a meeting of the debenture holders is to be held about December, 1915, to consider the creation of such an issue, and also to sanction the funding of the interest on the debenture stock into prior lien bonds for the next two years.

The accounts are made up annually to June 30, and submitted in October. No profit and loss account has yet been published, the company's works being under construction. In the balance sheet as at June 30, 1914, preliminary expenses figured as an asset for £93,407, of which £48,500 was represented by the issue of fully-paid shares. Voting power, one vote for every share. Director's qualification, 250 shares. Transfer form, common; fee, 2s. 6d. Telegraphic address, Cilasco, London. Telephone number, 4572 Avenue.

City of London Electric Lighting Company, Limited.—*Directors:* J. B. Braithwaite (Chairman), F. W. Reynolds (Deputy-Chairman), Sir D. Salomons, P. D. Tuckett, Marq. of Winchester, F. Bailey (Engineer) and J. C. Bull, the last two being also Joint Managing Directors. *Secretary:* A. F. Harrison. *Office:* 1-2, Great Winchester Street, E.C.—The company was registered July 11, 1891, and holds provisional orders for the electric lighting of the City of London and the district of the late St. Saviour's (Southwark) District Board of Works. The orders for the City of London (formerly three in number) have been amalgamated into one under the City of London Electric Lighting Act of 1893; the order continues in force until the Corporation of London or the London County Council exercises its right to purchase the undertaking. Under the provisional orders the Corporation had power to call upon the company within six months from August, 1914, to sell the undertaking, but this option has not been exercised; as to whether the Corporation has rights of purchase at a later date opinions are at variance. On August 26, 1931, the London County Council, which, by the London Electric Supply Act, 1908, has been substituted for the Corporation as purchasing authority, may acquire the whole of the company's undertaking, both in regard to the City of London and St. Saviour's (Southwark) district, upon the terms of the Electric Lighting Act, 1888, plus compensation for the loss of one year's profits, subject to the Council purchasing all the undertakings of the London Electric Supply Companies simultaneously. Three years' notice of intention to purchase must be given, and, after such notice has been served, the company may call upon the County Council to advance money for capital expenditure upon the terms and conditions named in the Act. By contracts with the late Commissioners of Sewers, the Commissioners, as far as they were able, granted the company the exclusive right to supply electricity for private purposes for 21 years from 1890-1, and after the expiration of the first 21 years, then for a further term of 21 years, but then concurrently with any other company, subject to an option to the Commissioners to purchase the private part of the undertaking by agreement, or, failing agreement, by arbitration at the end of the first period of 21 years. The contracts for the Central and Western districts have been held by the House of Lords to be invalid, because a commissioner held 200 shares in the Brush Electrical Engineering Company, Limited, the original grantees of the contracts; the contract for the Eastern district has been held to be valid. Under the provisions of the Electric Lighting Act, 1888, the Charing Cross and Strand Electricity Supply Corporation, Limited (now the Charing Cross, West End and City Electricity Supply Company, Limited), has, notwithstanding the above-mentioned contracts, obtained powers to supply in the City. The provisional orders contain a modification of the sliding scale applied to gas undertakings by which the price to consumers is reduced by ½d. per Board of Trade unit for every 1 per cent. above a certain standard profit. This standard profit is reached in each district when, after making provision for depreciation and a reserve fund, a cumulative profit of 10 per cent. on the amount of the capital for the time being employed in the undertaking is exceeded.

The authorised capital is £1,200,000 in shares of £10, £800,000 being ordinary, and £400,000 6 per cent. cumulative preference, but both classes rank pari passu as regards capital. All the preference and £705,950 of the ordinary capital have been issued and paid up. There are borrowing powers (including premium on redemption) for £900,000, and there have been allotted—£400,000 5 per cent. first debenture stock, with interest payable January 1 and July 1, and the principal repayable at the option of the company at 125 per cent. (now) on six months' notice; and £300,000 4½ per cent. second debenture

stock, with interest payable January 1 and July 1, and the principal repayable at par, at the option of the company, (now) on six months' notice. At December 31, 1914, capital had been over-expended by £228,668, provided out of reserves and revenue and by means of an advance of £77,000.

The accounts are made up annually to December 31, and submitted in March. For the five years to 1908 the ordinary got 6 per cent. each year; for 1909 and 1910, 7; for 1911, 8; for 1912, 9 (including a bonus of 1 per cent. paid out of the dividend equalisation fund, the balance of which fund was in 1913 retransferred to net revenue account); for 1913, 10; and for 1914, 9. Reserve funds, £175,885, employed in the business; debenture stock premium redemption fund, £66,019; leasehold redemption fund, £5,088; carried forward, £23,372. On account of 1915 3 per cent. was paid on the ordinary shares in September. The preference dividend is paid half-yearly in March and September. Voting power, one vote for every share of either class. Director's qualification, £1,000 of either class of shares, to be acquired within one month of appointment. City of St. Petersburg New Waterworks Company, Limited.—*Directors:* A. F. H. Darley (Chairman), H. F. Guinness and W. T. Western. *Secretary:* G. C. Harrower. *Office:* College Hill Chambers, Cannon Street, E.C.—The company was registered May 16, 1874, and was reconstructed early in 1881. The company had a concession for 40 years from May 31, 1877, but as from January 1, 1893, the municipality of Petrograd (St. Petersburg) has exercised the right of purchasing the works. The municipality has paid over a capital sum of 100,000 roubles, and until the expiration of the concession—that is, to May 31, 1917—has to pay to the company the sum of 83,300 roubles at the end of each half-year, the municipality retaining the right to commute the annuity for a capital sum, calculated on a 5 per cent. basis. Of the amount received half-yearly from the municipality about one-fourth is applied to dividends, and the balance is transferred to capital account. In 1895 the capital was written down by £7 per share to provide for the difference between the cost of the works and the present value in connection with the transfer of the undertaking; in 1909 £2 per share was returned to the shareholders, and in May, 1911, and December, 1913, £3 per share each time; while the directors anticipate that a further sum of about £5 per share will be returned to the shareholders at the expiration of the concession. The capital is now £50,000 in fully-paid shares of £5. The accounts are made up annually to December 31 (old style), and submitted in February. For each of the twelve years to 1908, 10s. 6d. per share was paid (on £13 per share); for 1909 and 1910, 10s. No interim dividend has been paid on account of 1915 as, "owing to the abnormally high rate of exchange, it is impossible at present to bring home the customary half-yearly remittances." Voting power, one vote for every 4 shares. Director's qualification, 50 shares. Transfer form, common; fee, 2s. 6d. per deed. Telegraphic address, Harrower, London. Telephone number, 671 Bank. All payments on the bonds are made by the London and Brazilian Bank, Limited, as above. The trustees for the bond holders (the City Safe Deposit and Agency Company, Limited) have the right of nominating four directors of the company.

The accounts are made up annually to July 31, and submitted in February. Interest charges have been regularly provided, and after meeting these there was a profit in 1911-12 of £8,783, and in 1912-13 of £3,774, which amounts were placed to reserve for depreciation and doubtful debts; in respect of 1913-14 a half-year's dividend on the preference shares to May 15, 1914, was paid (these shares were issued in December, 1913), and after adding £9,000 to reserve for depreciation and doubtful debts, increasing that item to £21,558, a credit balance of £3,998 was carried forward. Chilibroste, M. M. Padilla and R. H. F. The company has acquired a concession granted by the provincial government of Tucuman, which gives the right to use the waters of the river Lules for a distance of 11 kilometres for the development of the water power, with the right to sell current direct to consumers for all purposes in all cities and towns in the province, exemption from provincial and municipal taxation for a period of 30 years, and the right to import all materials necessary for carrying out the works free of duty. The concession is held in perpetuity, but the government has the right to expropriate the works after fifty years at a premium of 20 per cent. The company also owns an electric tramway concession granted by the provincial government, giving powers to construct and operate electric tramways within the city of Tucuman and the suburbs, comprising 60 kilometres of route. The authorised capital is $2,000,000 in shares of $100 gold, with power to increase to $5,000,000, of which $1,555,000 has been issued. There are also 5 per cent. first mortgage debentures, of £100 each, for £300,000, forming part of a total authorised issue limited to the amount of the subscribed share capital for the time being, and in no case to exceed $5,000,000 (gold). The interest dates for the debentures are April 1 and October 1, and the principal is repayable by April 1, 1945, at 105 per cent., the company reserving the right to redeem the whole or any part of the issue at any earlier date, at a like price, on three months' notice. The trust deed provides for the payment to the trustees annually, commencing April 1, 1915, of a sum equal to 1½ per cent. on the amount of the debentures issued, whether outstanding or not, such sum, with all interest on the debentures purchased or paid by the trustees, to be applied in the purchase of debentures at or below 105 per cent., or in redemption, by drawings, at 105 per cent. The debentures are secured by a trust deed, and constitute a first specific mortgage and charge upon the concessions and immovable property of the company. The above debentures, and $500,000 of shares, were offered for sale in April, 1912, through the London and River Plate Bank, Limited, 7, Princes Street, E.C., on behalf of the purchasers, at 90 per cent. and par (£20) respectively. Payments on the bonds are made by the London and River Plate Bank, Limited.

The company has been supplying electric energy for light and power purposes to the City of Tucuman since December, 1912. In 1914 an agreement was entered into by which, as from July 1, 1914, the Tucuman Tramways, Light and Power Company, Limited, has undertaken the management of the business of the Compañia Hidro-Electrica de Tucuman (Argentina), guaranteeing that if the net revenue of the Hidro Company is insufficient to provide for the service of its debentures and a dividend on its shares at the same rate as the dividend paid for the corresponding financial year on the 6 per cent. participating second preferred shares of the Tucuman Company, the latter will make up the deficiency, while, in the event of the net earnings of the Hidro Company being more than sufficient to pay the service of its debentures and a dividend as stated, the surplus is to be retained by the Tucuman Company. The Tucuman Company has acquired nearly all the shares of the Hidro Company. The above-mentioned debentures are quoted in the official list; latest price, 85½.

Edmundsons' Electricity Corporation, Limited.—*Directors:* P. D. Tuckett (Chairman), S. Beeton and A. A. C. Swinton. *General Manager:* F. E. Gripper. *Secretary:* C. H. Jones. *Office:* Broad Sanctuary Chambers, Westminster, S.W.—The company was registered April 7, 1897, to take over the business of Edmundsons, Limited, registered December 5, 1888, and has acquired concessions for central station lighting in certain provincial cities and towns. These are held largely through subsidiary companies, the investments in, and advances to, such companies at March 31, 1915, figuring in the balance sheet for £1,154,638.

Late in 1912 £2 was written off each then ordinary share of £5, and each preference share of £5 was divided into two shares of £2 10s. each, one entitled to a cumulative preferential dividend of 6 per cent., and one to a non-cumulative preferential dividend of 6 per cent., both having further participation, while every two preference shares of each class have since been consolidated into one of £5. The authorised capital is now £640,000, £240,000 being in ordinary shares of £3, £200,000 in 6 per cent. cumulative preference shares of £5, and £200,000 in 6 per cent. non-cumulative preference shares of £5, and the whole amount has been subscribed and called up. In addition to the above dividends on the preference shares they are entitled to rank pari passu for further dividend in each year at the rate of ¼ per cent. for every 1 per cent. paid on the ordinary shares, until they both shall have received 7 per cent., while as soon as the non-cumulative preference shares shall have received their full fixed

dividend of 6 per cent. for two consecutive years, the preferential dividend on them is to become cumulative. The preference shares rank equally as regards capital, but have priority over the ordinary, and after repaying the whole of the capital, and £2 per share additional on the ordinary, surplus assets are to be divided equally between all the shares, irrespective of class. The company has borrowing powers equal to three-fifths of the amount of issued and paid-up share capital. There has been issued £433,500 4½ per cent. first mortgage debenture stock secured by a first mortgage on debentures received in exchange for laying down electricity stations in various provincial towns, with interest payable January 15 and July 15, and the principal repayable, at the option of the company, in whole or in part, at any time, on three months' notice, at 105 per cent., while if at any time the debenture stock shall become payable owing to the winding up of the company it is to be redeemed at the same price. A cumulative sinking fund of 1 per cent. per annum is provided, commenced in 1912, to be applied in the purchase of stock at or below 105 per cent., or by drawings at 105—amount of debenture stock outstanding, £415,343. At March 31, 1915, there was a loan of £17,000, secured by mortgage on one of the undertakings and £25,000 first mortgage debenture stock.

The accounts are made up annually to March 31, and usually submitted in July. For 1905-6, 4 per cent. was paid on both ordinary and (then) deferred. For 1906-7 the preference dividend was paid for the first half of the year only; and for the five years to 1911-12 there was no dividend on either class of shares. In 1912 the capital was written down and reconstructed, as stated above, the sums written off the capital being applied in writing back the value of investments in, and advances to, subsidiary companies, in extinction of the item of goodwill, &c. In the reconstruction of capital all arrears of dividend on the old preference shares were cancelled. For 1912-13, 1913-14 and 1914-15 the dividend on the cumulative preference shares was paid, but there was no distribution on the other classes of shares. Reserve fund, £47,502; carried forward, £3,365, including £2,125 brought down. The dividend on the cumulative preference shares is paid in January and July. Voting power, one vote for every share of either class. Director's qualification, 100 shares of either class. Electrical Development Company of Ontario, Limited.—*Office:* Toronto, Canada.—The company was incorporated under the Ontario (Canada) Companies Act on February 18, 1903, and by its charter was granted the right to generate 125,000 electrical horse-power from the waters of the Upper Niagara River. It has the right to dispose of power either in Canada or the United States, but 50 per cent. must be sold in Canada provided there is a demand for it. The company has erected a power house on the Niagara River above the Horseshoe Falls, with headworks, wheelpit and tunnel for complete capacity of 125,000 horse-power, and building and equipment for generating 90,000 horse-power. The company owns a freehold estate of 650 acres at Niagara. The company owns all the bonds and all the issued stock of the Toronto and Niagara Power Company, a company incorporated under the Railway Act of Canada on May 15, 1902, for the purpose of long distance transmission of electric power. This company owns a private right of way from Niagara to Toronto, a distance of about 85

miles, on which are constructed a transmission line and transformer stations conveying power from the Electrical Development Company's generating plant to Toronto. The Toronto and Niagara Power Company also owns a private right of way from Niagara to the power house of the Niagara, St. Catharines and Toronto Railway, a distance of about 5½ miles, and a line to transmit power to that company. The company also owns a right of way to Brantford, a distance of about 45 miles.

The authorised share capital is $6,000,000 in shares of $100, all of which has been allotted and paid up. In March, 1906, there was offered for sale, at 96½ per cent., $2,500,000 first mortgage sinking fund 5 per cent. gold bonds of $500 each, forming part of a total authorised of $10,000,000, all of which has been issued. Coupons are payable March 1 and September 1 by the Canadian Bank of Commerce, Toronto, or New York, or in London (2, Lombard Street, E.C.) at £2 11s. 5d. per bond, and the principal is repayable March 1, 1933, in Toronto or New York, or in London at £102 14s. 5d. per bond. The bonds are secured by a first mortgage on all the present and future real and personal properties, &c., and a sinking fund is provided, commencing on March 1, 1910, of $1 per annum for each electrical horse-power sold and paid for during the preceding year, the sinking fund to be applied to the purchase and cancellation of bonds.

According to a circular issued in April, 1908, there was a net loss from operation during 1907, after charging interest, of $163,826, and some financial reorganisation became necessary. An arrangement was entered into with one of the subsidiary companies controlled by the Toronto Railway Company, the largest consumer of the Electrical Development Company's power, this subsidiary company being the Toronto Power Company, Limited. By this arrangement the Toronto Power Company purchased $1,850,000 of unissued first mortgage bonds, completing the total authorised of $10,000,000, and the Power Company also took over the accounts receivable and stores on hand, and had to provide money to meet the remaining liabilities, to complete the unfinished contracts, and, for a certain period, to provide the interest on the bonds and operate the works of the company, and its transmission lines, the Power Company taking complete control of the Electrical Development Company and a lease of the undertaking. In connection with this arrangement it was necessary to convert one-half of the share capital into preference stock having voting power only if default be made in payment of interest on the bonds, and the shareholders were called upon to surrender their holdings of common shares and to accept in lieu thereof 50 per cent. in preferred shares, the then remaining $3,000,000 of common shares being transferred to the Toronto Power Company. The new preferred shares rank for 6 per cent. per annum dividends, which were non-cumulative until January 1, 1910. By the terms of the lease to the Toronto Power Company, Limited, the earnings for the first two years from March 1, 1908, consisted of rentals of an amount sufficient to meet the interest on the Electrical Development Company bonds. After March 1, 1910, the net earnings from the leased premises are to be used, if sufficient (1) for payment of bond interest on the Electrical Development Company first mortgage bonds; (2) for payment of first mortgage bond sinking fund to trustee for the Electrical Development Company's bonds; (3) for payment of Electrical Development Company preference stock dividend. Interest on the first mortgage bonds has been regularly met. In July, 1908, the Toronto Power Company, Limited, made an issue of debenture stock in this country, secured by a first mortgage on $2,000,000 of 5 per cent. first mortgage bonds of the Electrical Development Company and on 97 per cent. of the common shares. This debenture stock is guaranteed, principal and interest, by the Toronto Railway Company. In July, 1912, holders of Electrical Development Company 5 per cent. first mortgage gold bonds were offered the right to exchange each $500 bond, carrying the coupon due September 1, 1912, for £103 of Toronto Power Company's 4½ per cent. consolidated guaranteed debenture stock, carrying a full half-year's interest due November 1, 1912, and this offer was accepted to the extent of $3,014,000 of Electrical Development Company's bonds, thus making a total of $5,014,000 of such bonds held by the Toronto Power Company, while bonds for $115,500 have been redeemed by means of the sinking fund referred to above. Reports and accounts of the Electrical Development Company are not published, but this information is official. The Electrical Development Company's first mortgage bonds are quoted in the official list; latest price, 89½.

Electricity Supply Company for Spain, Limited.—*Directors:* M. Dukas and L. Weil. *Secretary:* C. Hill. *Office:* Dunster House, Mincing Lane, E.C.—The company was registered June 7, 1889, for the purpose of erecting a central electric supply station in Madrid under a concession (unlimited in duration) obtained from the municipality. In 1900-1 the ordinary and founders' shares were written down from £5 to 5s. each, and in 1909-10 one half of the preference share capital was written off, and the authorised capital is now £105,000—£100,000 being preference shares of £5, with a priority as to capital, £4,975 in ordinary shares of 5s., and £25 in founders' shares of 5s. After payment of a dividend of 5 per cent. per annum (non-cumulative) on the preference shares, the ordinary shares are to receive annually out of profits the sum of £6,965, while any surplus is to be distributed—as to one half amongst the founders' shares and the other half amongst the holders of all the other shares, treated as one class. All the ordinary and founders' shares and £86,650 of the preference have been issued and called up. At December 31, 1914, there were—£11,500 6 per cent. first mortgage debentures of £100 with interest payable January 1 and July 1, and the principal repayable on December 31, 1916; £6,500 7 per cent. second mortgage debentures of £100, with interest payable January 1 and July 1, and the principal repayable on December 31, 1916; and £113,400 (balance outstanding of £133,700, part of £250,000 authorised) 5 per cent. consolidated debentures of £100, with interest payable January 1 and July 1, and the principal repayable at par by annual drawings in November, terminating in 1944, but the company reserves the right to increase the amount drawn or to pay off the entire issue at any time, at the same price (the amount of these debentures was increased early in 1913 as stated below to £119,400).

The accounts are made up annually to December 31, and submitted in June. As from January, 1901, the properties, taken at an aggregate valuation of £455,000, were leased to a Spanish company for 50 years at a rental of 1,100,000 pesetas per annum, plus one-fourth of any sum distributed by the Spanish company in any year in excess of 26 per cent., this rental at the average exchange being worth about £37,500 per annum. At the conclusion of the lease the lessee company is to hand back to the Electricity Supply Company properties of the value of £300,000, any deficiency to be made up in cash. It is believed that for the eleven years to 1912 only debenture interest was paid, while the interest due on January 1, 1913, was not paid owing to the non-receipt of funds from Madrid, but early in 1913 an issue of £6,000 5 per cent. consolidated debentures was made to pay interest due (increasing the amount to £119,400). The files at Somerset House show that for 1908 after meeting debenture interest there was a surplus of £17,863, for 1909 of £20,445, for 1910 of £21,899, for 1911 of £821, and for 1912, £3,600, and these amounts were applied to depreciation of plant, machinery, &c. No information is obtainable from the company.

Voting power, one vote for every ordinary or founders' share, while on certain occasions the latter are entitled to 100 votes each; preference shares have one vote for every 10 shares. Director's qualification, 50 shares, any class. Transfer form, common; fee, 2s. 6d. per deed. Telegraphic address, Substantial, London.

The bonds are a first lien on the company's properties, and the capital stock held in other companies, subject only to $275,000 of underlying bonds; coupons are payable May 1 and November 1, and a sinking fund of 1 per cent. per annum, commencing on October 1, 1915, is provided, this fund to be applied in purchasing bonds at or under 105 per cent., or in redeeming bonds, to be selected by drawings at that price, or in purchasing and cancelling any of the above prior bonds then outstanding. Under the terms of the trust deed the company has the option, in lieu of making the above-mentioned sinking fund payment of 1 per cent. per annum, either to deliver to the trustees outstanding bonds of this issue for a nominal amount, equivalent at 105 per cent., plus accrued interest, to the amount of the sinking fund payment, or to expend on its properties for construction, or in the acquisition of new properties, or additions or improvements thereto, a sum per annum equal to 2 per cent. on the bonds from time to time issued and outstanding. Bonds so purchased or delivered to the trustees are to be kept alive for the benefit of the sinking fund, and all bonds outstanding are repayable in 1949. All payments are made at the office of the company in New York in United States currency, and interest has been met to date. No information is now obtainable from the company. Lobito, Benguella and Catumbella Electric Light and Power Company, Limited.—*Directors:* C. F. Bamford, A. S. Collard, E. Hayward, M.P., F. W. Kerr and F. O. Ockleston. *Secretary:* G. M. O'B. Horsford. *Office:* 31, Budge Row, E.C.—The company was registered March 5, 1910, to acquire certain exclusive concessions for 99 years, granted by the municipalities of Benguella and Catumbella for the supply of electricity for lighting and power to those towns, including the port of Lobito, Portuguese South-West Africa. At the end of the concession the properties revert to the municipalities without payment, and no monetary guarantee was given, but the municipalities agreed to take, during the first year of working, light of a specified minimum value. The company has an issued share capital, all of one class, of £89,807, besides pre-prior lien 6 per cent. debenture stock for £4,096 (while a further £8,300 of this stock had been issued as a collateral), prior lien 7⅓ per cent. debenture stock for £18,800, and first mortgage 6 per cent. debenture stock for £68,961. Interest on all three classes of debenture stock is in arrear, and in 1914 a scheme for the re-arrangement of the capital was brought forward, and has been sanctioned by the proprietors, although the new first mortgage debenture bonds have not yet been disposed of, but scrip representing them has been deposited with trustees, who ultimately will carry out the terms of the scheme as detailed below. Under this scheme (which is at present in abeyance owing to the war) the share capital is not altered; £120,000 of new 5 per cent. mortgage debenture bonds of £10 each are created and are to be disposed of, while from the proceeds of these new first mortgage debenture bonds the pre-prior lien debenture stock is to be repaid with arrears of interest; the prior lien debenture stock is to be paid off to the extent of one-half the amount of principal and interest due, the other half being provided in new preference shares; and the first mortgage 6 per cent. debenture stock is to be exchanged for new preference shares at the rate of one preference share of £1 for every £1 of debenture stock. The authorised share capital will then be £200,000 in shares of £1, half ordinary and half 6 per cent. preference and participating shares, the latter to be entitled to their fixed rate of 6 per cent. dividend, and to two-thirds of the surplus profits of each year available for dividend, and the latter are also to have, in the event of liquidation, a priority as regards capital over the ordinary, and are to take two-thirds of the surplus assets. Of the ordinary capital £89,807 has been issued and is fully paid, and of the preference capital £99,000 is to be issued credited as fully paid under the scheme.

The last accounts were for the sixteen months to February 28, 1914, and were submitted in August, 1914. As stated above, a reorganisation of the capital account has been agreed to, but the scheme is at present in abeyance owing to the war. The company commenced supplying light in January, 1913, and to February 28, 1914, the revenue from current and installations was £2,368, while general expenditure in Angola and in London, including debenture interest, was £57,369. By an act of parliament passed in 1900 the Marylebone Borough Council purchased the Marylebone portion of the company's undertaking and business, under the terms of the Lands Clauses Acts. Owing to certain difficulties, the purchase consideration was not paid until the beginning of July, 1904. The amount paid was £1,212,000, and after crediting capital account with a portion, representing the company's expenditure in Marylebone, and providing certain arbitration and other expenses, there remained a sum of, in all, £662,551, of which £600,000 was appropriated to the bonus of £6 per share distributed in July, 1904, and £62,551, with a surplus of £17,356 on the sales to the London County Council of generating works at Sardinia Street, were placed to credit of depreciation and reserve fund. The ordinary shares were formerly of £10 each, but in 1905 each share was divided into two. In the event of a winding up the preference shares rank first on the assets, after liquidating liabilities, for any arrears of dividend, but in regard to capital they rank pari passu with the ordinary. All the ordinary and £380,605 of preference have been subscribed and paid up. There are also—£250,000 4½ per cent. first mortgage debenture stock (the total authorised), interest being payable January 1 and July 1, and the principal repayable at the company's option at 110 per cent. on six months' notice on or after January 1, 1916; and £378,000 3½ per cent. mortgage debenture stock, £125,000 having been issued in July, 1899, at 97 per cent., £125,000 in March, 1900, at 94 per cent., and the balance placed on the market at varying rates, secured by a first charge on the company's works at Willesden, and, subject to the above-mentioned 4½ per cent. debenture stock, on the other properties, with interest payable January 1 and July 1, while the stock is redeemable by drawings at 105 per cent. at the company's option (now) on six months' notice. In February, 1914, Messrs. Higginson and Co., Bank Buildings, Princes Street, E.C., offered for sale $10,000,000 of first and refunding mortgage 5 per cent. sinking fund gold bonds of $100, $500 and $1,000 each, at the price of 94 per cent., the bonds being simultaneously offered in the United States. Montreal Water and Power Company.—*Directors:* E. Hanson (President), T. J. Drummond (Vice-President), T. Bienvenu, F. W. Evans, W. Hanson, J. Macfarlane and A. F. Riddell. *Office:* Montreal.—This company was formed in 1891 to establish works for the supply of water to the suburbs of Montreal, and it now holds franchises and contracts with various municipalities with an aggregate population of about 280,000. The authorised capital is now $4,000,000, half being in 7 per cent. preferred shares of $100, and half in common shares of $25, and $500,000 of the preferred and $280,000 of the common have been issued and paid up. The company was first known here by the issue in July, 1892, through the Municipal Trust Company, Limited, of £120,000 (part of a total authorised of £250,000) 5 per cent. first (now second) mortgage bonds of £100 each, now ranking after the prior lien bonds (referred to below) and being also subject to $250,000 5 per cent. debentures, charged on the portions of the undertaking situated at St. Cunegonde. Interest is payable June 30 and December 31, and the principal is repayable at par June 30, 1932, or earlier, at the option of the company, on six months' notice, at 105 per cent. A sinking fund was to be provided for the repayment of the bonds, and it was stated in the prospectus that none of the proceeds of the bonds would be paid over to the company until the trustees for the debenture holders (the Law Guarantee, Trust and Accident Society, Limited—in liquidation) were satisfied that the actual net revenue from the works was sufficient to cover interest on the bonds. The bonds were offered at 92 per cent., but subscribers had the option of taking bonds, with a guarantee both as to principal and interest by one of certain companies (this arrangement being effected quite independently of the Montreal Water and Power Company) on payment of an extra 8 per cent. Interest on the unguaranteed bonds was paid to June 30, 1894, after which the company ceased paying interest on these bonds, and by an arrangement with the bondholders the overdue interest from that time to June 30, 1903, was funded into scrip of the same issue, the total amount of the issue now outstanding, including scrip, being $1,074,596 ; under deed of 1903 interest on these bonds and scrip until June 30, 1912, was payable only out of net profits. During the year 1908 the company commenced to make payments on these bonds and scrip, having declared and paid a dividend of 1 per cent. on the coupons due June 30, 1908, while in September of each year from 1909 to 1912, both inclusive, 2½ per cent. was paid out of the profits of the year ending on the preceding April 30. Since then the bonds have been a fixed charge on the earnings of the company and full interest has been paid. Payments are made by the liquidators of the Law Guarantee, Trust and Accident Society, Limited, 49, Chancery Lane, W.C.

Late in 1908 an issue of £1,000,000 4½ per cent. prior lien bonds was created, of which a portion was issued in exchange for then existing 4 per cent. prior lien gold bonds, and in January, 1909, the Law Guarantee, Trust and Accident Society, Limited, was authorised to receive subscriptions at

94 per cent. for £100,000 of the 4½ per cent. prior lien bonds of £100 each, all of which was placed, while with other sales the total amount of 4½ per cent bonds has been issued. Interest is payable June 30 and December 31, and the bonds are repayable June 30, 1932, at 105 per cent., or at any time prior thereto, at the option of the company, on six months' notice, at 110 per cent., while the bonds are also to be repaid at 110 per cent. in the event of voluntary liquidation. Payments have been regularly met and are made by the Bank of Montreal, 47, Threadneedle Street, London, E.C., or at the offices of that bank in Montreal. The bonds are registered, and are transferable on common forms, either at the office of the company in Montreal, or at the office of the trustee, the Law Guarantee, Trust and Accident Society, Limited (in liquidation), 49, Chancery Lane, W.C.

At a recent session of the Quebec Legislature a bill was introduced amending the company's charter, and by mutual agreement with the City of Montreal it was, amongst other things, provided that for six months after the bill became law the city should have the right to purchase the capital stock of the company, and at any time after the six months to expropriate the company's system.

The accounts are made up annually to April 30, and submitted about July in Montreal. The gross revenue in the year 1906-7 was $263,524; in 1907-8, $300,836; in 1908-9, $352,810; in 1909-10, $388,122; in 1910-11, $432,150; in 1911-12, $506,504; in 1912-13, $671,684; in 1913-14, $783,689; and in 1914-15, $775,462, there being a net profit for the year, after meeting operating expenses, &c., of $444,968, of which $249,241 was absorbed by interest charges on the funded debt, including the first mortgage bonds, $29,936 was added to reserve account for premium at maturity on prior lien bonds, &c., and $40,000 as provision for general depreciation, leaving $312,665 to be carried forward. Special reserve account for depreciation, &c., $453,191. The 4½ per cent. prior lien bonds are quoted in the official list; latest price, 91¾.

This arrangement has been carried out, and the capital is now as stated above, both classes ranking equally as regards dividend and capital as from July 1, 1915. There are also $7,166,000 first and refunding mortgage gold 5 per cent. bonds to bearer, of $1,000 each, registrable as to principal only, or exchangeable for fully registered bonds in denominations of $5,000 and multiples, while bonds registered either as to principal, or principal and interest, can be exchanged back again for coupon bonds, exchange being made at the office of the United States Mortgage and Trust Company, New York; no fee charged for either operation. The bonds form part of a total authorised of $30,000,000, are secured by first mortgage on all the property of the company, have interest payable February 1 and August 1 in New York, and they are redeemable as a whole on any interest date, on four weeks' notice, at 105 per cent. and interest up to December 31, 1925; at 104 and interest during the year 1926; at 103 and interest during 1927; at 102 and interest during 1928; and at 101 and interest during 1929, and during the period between January 1, 1930, and July 31, 1930, while in any case the bonds are to be repaid by August 1, 1930. A portion of the issue may be redeemed by drawings on the above basis by the use of moneys in the improvement fund (see below). The unissued balance of the bonds is reserved to provide for improvements or additions to the property, including purchase of bonds and stocks of other companies, but acquired bonds and stocks are at no time to represent the issue of more than 15 per cent. of the total outstanding of the bonds, and issues for improvements and additions can only be made at par to the extent of 80 per cent. of the cost of such improvements or extensions, and then only provided that the net earnings for twelve consecutive months in the thirteen preceding calendar months have been at least twice the interest on all bonds of this issue outstanding or sought to be issued. An "improvement fund" is provided which requires the company to pay the trustee, in each of the years 1915 to 1919 inclusive, 1 per cent.; in each of the years from 1920 to 1924, 2 per cent.; and in each year from 1925 to 1929 inclusive, 3 per cent. of the principal amount of all bonds outstanding, and of any outstanding bonds of corporations two-thirds of whose capital stock is at the time owned by the company and pledged under the mortgage, with the proviso that in case the net earnings of the company for twelve months ending May 31 in any of the years from 1925 to 1929, inclusive, equal or exceed three times the interest charges on all bonds outstanding, then the amount required to be paid into the improvement fund on the next succeeding August 1 need be equivalent to only 2 per cent. instead of 3 per cent. Funds in the improvement fund may be used for improvements or betterments, or for the redemption of bonds. The full preferred dividends are being paid, and for the year 1912 there was then a surplus income of $106,257; for 1913, a surplus of $40,229; and for 1914, a surplus of $87,216. Stevens, 57½, Old Broad Street, E.C. *London Agent:* National Bank of Egypt, 4-5, King William Street, E.C. *Head Office:* Cairo.—The company was registered May 17, 1902, under Egyptian laws, and the duration of the company is fixed at 50 years from June 1, 1902. The authorised capital is £3,740,000, £1,250,000 being preferred shares of £10, £2,480,000 ordinary shares of £5, and £10,000 deferred shares of £5, and the entire capital has been issued and called up. The preferred shares (subject to placing 5 per cent. of the net profits to reserve) rank before the ordinary for cumulative dividends of 4 per cent.; of the residue 5 per cent. on the first £150,000 and 2½ per cent. on the surplus are to go to the National Bank of Egypt as remuneration, and after paying 5 per cent. dividend to the ordinary shareholders (non-cumulative), the balance is to be divided—half amongst the ordinary shares and half amongst the deferred shares. In the event of the net profit not representing 3 per cent. on the capital employed in loans to small farmers, the sum necessary to make up the deficiency is to be taken from the reserve; but in the event of insufficiency of this fund the government will hand over to the company, by way of subvention, the balance of the sum necessary for the above-mentioned purpose. At the expiration of the company, or in case of earlier dissolution, the preferred shares are to be repaid first, then the ordinary shares and then the deferred, and of any surplus assets one-half is to go to the ordinary and one-half to the deferred.

In April, 1906, an agreement was entered into between the Egyptian government, the National Bank of Egypt, and the Agricultural Bank of Egypt by which the Agricultural Bank was authorised to issue bonds bearing interest at 3½ per cent. per annum to a total of £6,570,000. In case of default by the Agricultural Bank in payment of any sum for capital or interest at due date the government undertook to pay, either on the demand of the National Bank or of any holder of bonds of the new series, to the National Bank the sum necessary to make good the default of the Agricultural Bank. Alabama Coal, Iron, Land, and Colonization Company, Limited.—*Directors:* M. Slaughter (Chairman), C. Lock and M. B. Snell. *Secretary:* B. R. Tomlinson. *Office:* 32, Bishopsgate, E.C.—The company was registered January 9, 1882, the chief object being to take over the land rights of the holders of Alabama 8 per cent. gold state bonds of 1870. These bonds originally numbered 2,000; 1,846 were exchanged into securities of this company, 37 were purchased by the company, and the remaining 117, by not complying with the terms of the bond, have been excluded from participation in the properties assigned to the trust. The rights are now administered by the Alabama State Land

Company, all of whose capital is held by the Alabama Coal, Iron, &c., Company. The American company, at the close of 1914, owned 122,725 acres of land in fee simple, mineral rights only for 326,098 acres, and surface rights for 1,160 acres, and the English company in addition 9,887 acres. In 1914 the American company sold 149 acres of fee simple for an average of $13.09 per acre, 80 acres of mineral rights for an average of $2.50, and 10,849 acres of surface rights for an average of $5.81, and received in the year in respect of such sales and note collection, and interest in respect of past sales, &c., a total sum of $77,891; at December 31, 1914, the amount owing in respect of past sales was $120,553.

In July, 1905, pre-existing preferred shares of the Alabama Coal, Iron, &c., Company were paid off, and the authorised capital, which was largely increased in 1912 to provide funds for the acquisition by the company of the bulk of the instalment certificates, now consists of £40,000 in deferred shares of 4s., of which £36,921 12s. has been subscribed and paid up. The Alabama bondholders received, on exchanging into securities of this company, non-interest-bearing certificates to the amount of £264 per bond, and also three fully-paid deferred shares per bond. Each certificate was of £66, and had attached 132 coupons of 10s. each, the total amount issued having been £487,216. Late in 1911 the company offered to purchase the whole of the certificates outstanding at the price of £15 9s. per certificate, equivalent to 70 per cent. of the nominal value of the 45 coupons outstanding at December 31, 1911, and this offer has been accepted by holders of certificates for £155,812, leaving certificates for £10,327 then in the hands of the public. As coupons are paid the money is received by the company in respect of certificates acquired, and the total amount now (August, 1915) unpaid is £125,528, of which £7,803 is represented by certificates still in the hands of the public. The above purchase of certificates by the company was effected out of the proceeds of the issue of shares, as above. The net profits derived from dealing with the lands are apportioned as follows: 70 per cent. to the redemption of the coupons of the certificates, and 30 per cent. to the company. When the certificates shall have been wholly paid off, all profits are to belong to the company.

The accounts are made up annually to December 31, and submitted in May. For 1906 the deferred shares received 50 per cent.; for 1907, $18\frac{3}{4}$; for 1908, $20\frac{5}{8}$; for 1909, 25; for 1910, $33\frac{1}{3}$; for 1911, $35\frac{5}{12}$; for 1912 and 1913, $52\frac{1}{12}$ each year; and for 1914, $31\frac{1}{4}$ (free of income tax). The payment of coupons on the certificates commenced in 1882, and the most recent distributions have been—in 1906 eight coupons; in 1907 and 1908 three coupons each time; in 1909, 1910, 1911, 1912 and 1913 four coupons each time; in 1914, two coupons; and in 1915 (to August) one coupon, the last being No. 98. Bondholders' sinking fund at December 31, 1914, £51; credit to land realisation account, £1,239. Voting power, one vote for each share. Director's qualification, £50 of paid-up capital. Transfer form, common: fee, 2s. 6d. per deed. Telegraphic address, Agitatedly, London. Telephone number, 2202 London Wall. The shares are quoted in the official list.

Alberta Land Company, Limited (Canadian Company).—*Directors:* W. E. Stavert (President), Lord Hindlip, C. Mandeville, G. Knowles and J. Knowles. *Head Office:* Calgary.—The company was incorporated in June, 1911, under Canadian laws, in reconstruction of the Alberta Land Company, incorporated in October, 1909, also under Canadian laws. The present company acquired 88,982 acres of land in Southern Alberta, Canada, as well as some at Lethbridge—the latter has since been disposed of. The company has a subscribed and paid-up share capital of $1,500,000 in shares of $5 (formerly of $100, but subdivided in 1913). In October, 1911, there was offered for subscription £200,000 5 per cent. debenture stock at 95 per cent., and the whole amount was allotted; interest is payable January 1 and July 1 (interest due January 1 and July 1, 1915, was not paid), and the principal is repayable at 105 per cent. on July 1, 1940, with the option to the company to redeem the whole or any part (if a part, by drawings) on any interest date, on three months' notice, or by purchase, in either case at 105 per cent. Against this deposit with the Canadian Agency certain securities are held of a more or less unmarketable nature. The Southern Alberta Company, also being without funds, is unable to proceed with the work of completing the main irrigation canal. Palmerston House, E.C.—The company was formed in 1870 as the Central Argentine Land Company, Limited, to acquire by transfer from the Central Argentine Railway Company the lands conceded to that company by the government of the Argentine Republic, and on July 16, 1888, the company was re-registered under the above title, with extended powers. In 1895-6 the uncalled ordinary capital was reduced by £3 per share, and in 1906 income stock for £133,476 was created for the funding of arrear interest on the preference shares to December, 1905. The authorised capital is now £650,000—£520,000 being in preference shares of £4, and £130,000 in ordinary shares of £1. In consequence of the creation of income stock in 1906 the manner of appropriating the net profits was somewhat modified, and now the preference shares rank first for cumulative dividends of 5 per cent., the income stock next for non-cumulative dividends up to 4 per cent., and the ordinary shares next for non-cumulative dividends up to 5 per cent. on the amount paid up, any surplus remaining to be applied in redemption of the income stock by drawings at par, or by purchase in the market below par. When the whole of the income stock has been redeemed the profits of each year available for dividend are to be applied, firstly, in payment of a cumulative dividend of 5 per cent. on the preference shares, and then 10 per cent. on the amount paid up on the ordinary shares, the balance being divisible amongst both classes of shares in proportion to the nominal amount of each share. In the event of liquidation the surplus assets available for distribution are to be applied, firstly, in payment of the amount paid up on the preference shares, secondly, in payment of the amount paid up on the ordinary shares, and thirdly, in payment of the nominal amount of the income stock, any balance to be divided between the preference and ordinary shares in proportion to the nominal amount of each share subscribed. The issued capital is £435,840 in fully-paid preference shares, and £104,469 in ordinary shares (issued in 1889 and since), with £52,234 10s., or 10s. per share, called up. Debenture stock may be issued to an amount not exceeding £100,000, and this power has been exercised to the extent of £63,780 in 4 per cent. debenture stock, issued in 1890; interest is payable February 1, May 1, August 1 and November 1, and the principal is (now) repayable at any time, in whole or in part, at the option of the company, on giving six months' notice, at 105 per cent. The company, however, retains the option of purchasing stock, and by this process the above amount has been reduced to £9,325. In the event of compulsory liquidation the debenture stock is repayable at par, but in the case of voluntary liquidation a premium of 5 per cent. is payable. There is also income stock, as mentioned above, for £55,248, outstanding balance of £133,476, issued early in 1907, in settlement of arrear interest (to December, 1905) on the preference shares.

The accounts are now made up annually to June 30, and submitted in November. Distributions were made on the preference shares for many years in irregular amounts, with the result that at December 31, 1905, there were arrears of $30\frac{5}{8}$ per cent., which arrears were funded, in 1907, into income stock at par. For 1906 there was an available balance, after meeting the preference dividend, and interest on income stock, of £5,365, out of which a distribution of 5 per cent. was made on the ordinary shares, and £1,500 was applied in the redemption of £2,042 of income stock; for 1907 5 per cent. was paid on the ordinary shares, but nothing was applied in the redemption of income stock; for 1908 and 1909 5 per cent. was paid on the ordinary shares, and £2,000 was applied each year in the redemption of income stock; for 1910 5 per cent. was paid on the ordinary shares, and £2,307 was applied in the redemption of income stock; for the half-year to June, 1911, the ordinary shares received $2\frac{1}{2}$ per cent. (actual); and for 1911-12, 1912-13 and 1913-14, 5 per cent. was paid each year on the ordinary shares, and sums of £21,000 and £45,000 respectively were applied in the redemption of income stock in 1911-12 and 1912-13, but nothing in respect of 1913-14. Reserve account, £25,000; reserve for outstandings, £5,000; carried forward, £3,202. Land sales in the year to June 30, 1914, from the original concession totalled 947 acres for £17,733, the proportion credited to capital being £5,632, and of the original concession there remained unsold on June 30, 1914, 74,922 acres, figuring in the balance sheet at cost of £65,496. Further, the company held new properties at cost, less sales and other credits, of £119,075, besides which there were—mortgage loans and interest, £210,360; investments and cash, £46,356; instalments unmatured on land sales, £167,187; colonists' balances outstanding, £112,850; buildings, wells, live stock, &c., at estancias, £2,752; and sundry debtors and bills receivable, £17,438; the only liabilities, other than on shares and debenture stock, being about £9,100. For 1914-15 a dividend of 5 per cent. on the ordinary shares was recommended in November, 1915. The preference dividend is paid in May and October.

about 1,820 acres have been sold on the instalment system, the further payments in respect of which, amounting to about £19,000, will, after deducting certain commissions, accrue to the company. It is proposed to develop the major part of the estate by irrigation for the culture of fruit and other crops, and the company also took over an irrigation system in course of construction, and a water right at Rock Creek on the Kootenay river, &c.

The authorised capital is £100,000 in shares of £1, of which £80,007 has been subscribed and paid up, and in June, 1912, there was offered for subscription £30,000 (the total authorised) 6 per cent. first mortgage debentures, of £100 and £50 each, and the whole amount was allotted ; interest on the debentures is payable January 1 and July 1 (see below), and the principal is repayable on January 1, 1922, at 105 per cent., but the company reserves the right to redeem the whole or any part of the debentures at any time on giving not less than six months' notice at 105 per cent. and accrued interest. The trust deed provides that the proceeds of all sales of land, which may be made only when the trustees are satisfied that the remainder of the mortgaged premises are a sufficient security for the debentures, shall be applied as follows : (1) 30 per cent. of all such proceeds shall be paid to the company, and (2) the remaining 70 per cent. shall be retained by the trustees, and be applied by them in redeeming the debentures, either by purchase in the market at or under 105 per cent., or by drawings at 105 per cent. The debentures are secured by a specific first mortgage upon the company's lands in British Columbia, and by a floating charge on the remainder of the property, assets and undertaking of the company, except its uncalled capital and 100 acres already sold, and the trust deed provides that no further debentures shall be issued secured upon the existing assets of the company, ranking prior to, or pari passu with, the present issue of debentures. Pursuant to a resolution passed by the first mortgage debenture holders in July, 1914, £4,000 7½ per cent. prior lien debentures have been issued, with interest payable January 1 and July 1 (see below), and the principal repayable on July 1, 1915 (see below).

Interest on the first mortgage debentures due on July 1, 1914, and January 1, 1915, was met by the issue of 6 per cent. funding certificates for £1,800, which were to have been redeemed on July 1, 1915, but by resolutions passed by the holders of the first mortgage debentures in June, 1915, the date for redemption of the funding certificates was extended until the next half-yearly day for payment of interest after the termination of the European war, subject to interest being capitalised and carrying interest at the rate of 6 per cent. per annum ; and that the interest on the first mortgage debentures due July 1, 1915, and on each succeeding half-yearly day on which interest shall become payable during the war shall be postponed until the next half-yearly day for payment of interest which shall happen after the termination of the war, subject to such interest being capitalised and carrying interest at the rate of 6 per cent. per annum, which interest is to be payable at the same time as the original interest. At the same time the period for the completion by the Baynes Lake Land Company of its Rock Creek irrigation system was extended from July 1, 1915, to July 1, 1916. Interest on the prior lien debentures was met on January 1, 1915, but subsequently the holders consented to postpone the payment of interest due July 1, 1915, and the repayment of the prior lien debentures until the next half-yearly day for the payment of interest after the termination of the European war. British Columbia Fruit Lands, Limited.—*Directors:* C. P. Johnston (Chairman), H. F. Mytton and T. G. Scott. *Secretary:* R. W. Ashton. *Office:* 4, Moorgate Street, E.C.—The company was registered May 14, 1909, and acquired, for the purpose of re-sale, 6,733 acres of fruit-yielding land situate in the Thompson River Valley, British Columbia at an average price of £15 18s. 10d. per acre, while in 1910 an adjacent property of approximately 35,000 acres (of which about one-third is freehold) was acquired for £61,584. The authorised capital is £300,000 in shares of £1, of which £179,600 has been subscribed and paid up, including 74,600 shares issued fully paid to the vendors, and 5,000 as fully paid to Mr. R. M. Palmer (the then managing director). There is also £150,000 6 per cent. first mortgage debenture stock, issued in March, 1912, at 97½ per cent., with interest payable March 1 and September 1 (see below for funding scheme), and the principal repayable March 1, 1932, at 105 per cent., which is also to be the price of redemption in the event of the voluntary liquidation of the company. The trust deed provides that an amount equivalent to 50 per cent. (see below) of the net proceeds of all instalments of land sales is to be paid to trustees for the service of the debenture stock, the company covenanting that such 50 per cent. shall not be less than at the rate of £20 per acre of fruit land, and £100 per acre for township property, and any sum not required for interest is to be applied to the purchase of debenture stock at not exceeding 105 per cent., or to drawings at that price, the company reserving power to redeem the debenture stock, or any part thereof, on any interest date (now), at 105 per cent., on six months' notice, while no dividend in excess of 15 per cent. is to be paid until the debenture stock has been reduced to £50,000. The debenture stock is secured by a first specific mortgage of all the company's lands and properties. The issue of debenture stock was made to provide funds for the completion of the purchase of the above-mentioned estate, refund floating indebtedness, &c.

The accounts are now made up annually to December 31, and those for 1913 were submitted in December, 1914. No dividend has yet been paid, and debenture interest due September 1, 1914, and since, is in arrear (see below for funding scheme). In 1913 45·85 acres were sold at an average of £174 19s. 3d. per acre, and, after payment of debenture interest, the credit balance brought forward of £5,661 was reduced to £2,590. The company owned at December 31, 1913, 6,419·88 acres of land, irrespective of the 35,000 acres acquired in 1910, and stock of horses, waggons, &c., stood in the books at £35.777; had owing to it in respect of land sales (partly taken over under the purchase agreement, &c.) £4,868; and had £811 cash in hand, while there were sundry debtors and loans for £2,883, and, on the other hand, sundry creditors for £4,039. The construction of irrigation works is proceeding.

In August, 1915, the debenture stockholders agreed to a scheme for the funding of interest on the stock, due from September 1, 1914, to March 1, 1918, both inclusive, into 6 per cent. participating convertible debenture scrip certificates, which, in addition to their fixed rate of interest (payable in cash on March 1 and September 1), are to receive, before any dividends are paid to the shareholders, a bonus equal to 100 per cent. of their face value, and when this bonus has been paid the certificates are themselves to be redeemed by the company at their full face value, either in cash or in

fully-paid shares; the scrip certificates are to have a floating charge on the assets ranking behind the debenture stock. The company is to pay over 75 per cent. (instead of 50 per cent. as above) of the net proceeds of sales of land, such proceeds to be applied in the first place in repayment of further moneys to be advanced as under, and subsequently to the redemption of debenture stock. The British, Canadian and General Investment Company, Limited, which holds the position of trustee for the debenture stockholders, has agreed to advance to the British Columbia Fruit Lands, Limited, as and when required, a sum of not less than £15,000 at 8 per cent. per annum, of which at least £10,000 is to be applied in the purchase of cattle, and the remaining £5,000 is to be used in paying the expenses of carrying through the rearrangement, and certain outstanding liabilities, and for working capital; the sums so advanced are to be secured by a first mortgage in front of the debenture stock upon the Cherry Creek property, and the whole of the cattle and live stock, while power is reserved to the company to borrow from the British Canadian and General Investment Company, if that company is willing to lend, an additional £35,000 on the same security. So long as any money remains due to the British Canadian and General Investment Company, that company is to have the management of the British Columbia Fruit Lands; the loan is to be for a period of two years, with the option to the British Columbia Fruit Lands to repay at any time on six months' notice, or to renew the loan for a further period of one year on payment of a commission of 1 per cent. The board of directors is reduced to three (who are directors of the British Canadian and General Investment Company), and so long as the interest on the debenture stock is in arrear, or any of the convertible debenture scrip certificates are outstanding, the power to appoint new directors is to be vested in the debenture stockholders, except that, so long as there is any money owing to the British Canadian and General Investment Company in respect of the prior mortgage mentioned above, that company is to have the right to veto any appointments of fresh directors. In future the debenture stockholders are to be entitled to attend general meetings, and to vote thereat at the rate of one vote for each £1 of debenture stock or £1 of scrip certificates. Voting power, one vote for each share. Director's qualification, shares to the nominal value of £500, but no qualification is necessary for directors nominated by the debenture stock holders. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in sums of £1 and multiples. Telegraphic address, Brifrutarm, London. Telephone number, 8249 London Wall. while in 1911-12 the preference capital was redeemed, partly by a cash payment and partly by the issue of 4 per cent. debenture stock, and this debenture stock was subsequently paid off. Late in 1912 10s. per share of ordinary capital was repaid by the issue of an equivalent amount of 3 per cent. debenture stock, and 1s. per share was written off and placed to the credit of the founders' shares, and 3 per cent. debenture stock was issued proportionately to the holders of the founders' shares.

The company has borrowing powers up to £10,000 over 60 per cent. of the subscribed capital, and there is outstanding 3 per cent. debenture stock for £30,119, with interest payable April 1 and October 1, and repayable, at the company's option, in whole or in part, at any time on thirty days' notice, the company retaining power to purchase any of the stock in the open market at any price not exceeding par.

In 1911-12 the preference capital was redeemed (partly by a cash payment and partly in 4 per cent. debenture stock, which latter has since been paid off), and for that year there was a credit balance of £1,588, out of which 1½ per cent. was distributed on the ordinary shares (as before reduction), and £144 was divided amongst the founders' shares; for 1912-13, there was no dividend on the shares, and, after meeting interest charges, a credit balance of £4 brought down was increased to £49; which in 1913-14 was reduced to £13. At the census, taken in May, 1911, the European population of Southern Rhodesia was 23,606, but is now probably near 30,000. The native population of Southern Rhodesia at the same date was 744,559 and Asiatics and other coloured persons 2,912. All Rhodesia is within the sphere of the British South Africa Company. After the revolt of the Matabele, which broke out in the spring of 1896, and was followed by the revolt in Mashonaland, which latter was not thoroughly quelled until the autumn of 1897, the company devoted its energies to the peaceful development of the resources of the country, and on November 4, 1897, the railway to Bulawayo was formally opened. On May 1, 1899, the first train from Beira, the eastern port, entered Salisbury, and on August 1, 1900, the widening of the gauge of the Beira Railway to 3 ft. 6 in., the standard gauge of South Africa, was completed. The line from Bulawayo to the Victoria Falls, on the Zambesi, a distance of 280 miles, reached the Falls on April 25, 1905, and the bridge spanning the Zambesi River was opened on September 12, 1905. The railway extension north of the Zambesi reached the Broken Hill Mine, a distance of 374 miles from the Victoria Falls, on June 11, 1906, and was opened for traffic on August 29, 1906. A further extension of the line from Broken Hill to the southern border of the Congo Free State, a distance of 133 miles, has been constructed by the Rhodesia-Katanga Junction Railway and Mineral Company. A line to the Matopos was opened for traffic on November 1, 1903. A branch line of the standard gauge of 3 ft. 6 in. runs from Salisbury to Sinoia, a distance of 82 miles. The first 22 miles of this line was opened for traffic on December 15, 1911, the remainder being opened on April 23, 1913. A branch line from Gwelo to Victoria, a distance of 126 miles, has been constructed by the Beit Railway Trustees. Canada North-West Land Company, Limited.—*Directors:* Sir E. B. Osler (President), W. D. Matthews (Vice-President), R. B. Angus, J. M. McIntyre, Lt.-Col. F. S. Meighen, F. G. Osler, Sir T. G. Shaughnessy, K.C.V.O. and Sir T. Skinner, Bart. (London). *Secretary-Treasurer:* S. B. Sykes. *Head Office:* 21, Jordan Street, Toronto, Canada.—This company was registered in Canada in 1893 to carry out the powers of an act of the Dominion parliament, which provided for the transfer of the assets and liabilities of the old company of the same name (registered July 24, 1882) to this company. The company issued one preferred share of $100 and one common share of $25 for every four old shares (£4 15s. per share paid up). The preferred shares ranked for 6 per cent. per annum dividends, and after the repayment of all preferred capital the residue of the company's land and other assets became the property of the holders of common shares. No dividend was paid on the preferred until in respect of 1901, for which year 2 per cent. was distributed, followed by 5 per cent. for 1902. Thereafter the full rate of 6 per cent. was paid, but the repayment of preferred capital began in 1904, when 20 per cent. was returned, followed by 20 per cent. in 1905, and the remaining 60 per cent. in 1906. Subsequent

receipts were applied to repaying the common shares—$12.50 per share in March, 1907, $7.50 in January, 1908, and $4 in October, 1908. The remaining $1 per share has been secured by the purchase of Ontario government 4 per cent. debentures. As assets are now realised distributions are made to the holders of the 58,707½ one-dollar shares, the first payment on this account being $5 per share in April, 1909, while similar distributions were made on January 15 and July 2, 1910, February 1 and September 25, 1911, May 1, 1912, February 1 and November 17, 1913, and December 19, 1914.

The distributions to British shareholders are now subject to income tax, the basis agreed upon being that the cost per acre is taken as 11s., and all realised over that is regarded as profit. With the publication of each annual report by the company the income tax authorities fix the proportions of the sums distributed that are regarded as income, and therefore liable to tax. In making income tax returns for 1915-16 the proportion of the Canada North-West Land Company's distributions liable to tax should have been based on the average of the three years 1912-13, 1913-14 and 1914-15, which were respectively three-quarters, four-fifths and nine-sixteenths of the total distributions made.

The accounts are made up annually to December 31, and submitted in Toronto in March. Sales of farm lands in 1914 were 9,398 acres for an aggregate of $127,543 (an average of $13.57 per acre), and at December 31, 1914, the company's assets consisted of—362,012 acres of land; large town-site interests; $1,457,237 due on land contracts (carrying interest at 6 per cent. per annum); $70,120 owing in respect of sales of town-sites; Ontario government 4 per cent. debentures, $76,828; $2,820 in respect of advances to settlers; and $56,016 cash in banks; while the liabilities, apart from the share capital, were only $1,328 (since 1909 payments of $40 per share have been made, as stated above). In 1915 (to October 31) the company sold 24,300 acres of land for $378,696, as compared with 6,997 acres for $95,897 in the same period in 1914. Voting power, one vote for every 4 shares. The company is quoted in the official list; latest price, 50.

Canadian Wheat Lands, Limited.—*Directors :* J. W. Dennis (Chairman), C. Ponsonby and W. J. Thorold. *Secretary :* W. J. Challis. *Office :* Bush Lane House, Cannon Street, E.C.—The company was registered January 4, 1911, to acquire from the Southern Alberta Land Company, Limited, the freehold of 64,000 acres of land. The authorised capital is £500,000 in shares of £1, of which

£400,000 has been subscribed and paid up, and on £350,000 of this sum the vendor company guaranteed dividends of 5 per cent. per annum for 1911 and 1912, and a further guarantee of 5 per cent. per annum on the 400,000 shares issued has also been given in respect of the years 1913 to 1916 inclusive. The £350,000 of capital was offered for subscription through Chaplin, Milne, Grenfell & Co., Limited (now in liquidation), while a further 50,000 shares were issued in February, 1912. The company has obtained loans for £11,128. The purchase consideration (for the 64,000 acres) was fixed at £358,400 (£5 12s. per acre), which was to include the sum considered necessary to complete the irrigation system under construction, whereby it is anticipated that approximately 50 per cent. of the company's lands would be rendered irrigable; the first two instalments, amounting to £256,000, which is at the rate of £4 per acre, have been paid, and the balance of £102,400 is payable in four instalments from January 1, 1915, to January 1, 1918 (both inclusive), while it is provided that in the event of the percentage of irrigable lands proving to be greater or less than 50 per cent., the purchase consideration is to be proportionately increased or reduced (as the case may be) at the rate of £1 12s. for each acre of such excess or deficiency; the instalment of £30,000 due January 1, 1915, is unpaid.

The accounts are made up annually to December 31, and usually submitted in June or July. Owing to various difficulties, the irrigation scheme of the Southern Alberta Land Company, Limited, has been delayed, and "it is impossible to say when the Canadian Wheat Lands Company is likely to get water on its land." The farming operations carried on by Canadian Wheat Lands in 1912, 1913 and 1914 were, in the absence of irrigation, unsatisfactory, and the excess (£25,539 in 1914) of expenditure over receipts has been treated as representing the cost of general development and organisation, amounting at December 31, 1914, to £51,351. For 1911 and 1912 the dividend of 5 per cent. guaranteed by the Southern Alberta Land Company, Limited, was paid out of funds provided by that company each year, but as the Southern Alberta Land Company passed into the hands of a receiver in 1914 the dividends for 1913 and 1914 have not been provided. In 1915 farming operations were suspended, with the exception of a small acreage of alfalfa. A portion of the property has been leased, and the directors are in favour of continuing this policy until they are assured of irrigation. Voting power, one vote for each share. Director's qualification, 1,000 shares, to be acquired by the date of appointment. Transfer form, common; fee, 2s. 6d. Telegraphic address, Wheatadian, London. Telephone number, 6873 City. The company is quoted in the official list; latest price, 6d.

In November, 1910, the sum of £2 per share was repaid to the ordinary shareholders, and in December, 1911, a further return of 10s. per share was made, the nominal value of the ordinary shares being retained at 1d. (uncalled) in order to preserve the rights of the holders to the cumulative dividend of 5 per cent. per annum up to the respective dates of the repayment of capital. Late in 1913 a return of 15s. per deferred ordinary share was made, and the capital then stood at £833 6s. 8d. in ordinary shares of 1d. (uncalled), and £1,350,000 in fully-paid deferred ordinary shares of £6 15s. Resolutions were passed in November, 1914, and sanctioned by the Court in June, 1915, (1) To reduce the capital from £1,350,833 6s. 8d. to £277,500 divided into 200,000 ordinary shares of 1d. each uncalled and 200,000 deferred ordinary shares of £1 7s. 8d. each, (*a*) by repaying 10s. per share in cash to each deferred ordinary shareholder and (*b*) by issuing to each deferred ordinary shareholder a participation certificate of the appraised value of £4 17s. 4d. (in discharge for paid-up capital for that amount on each deferred ordinary share) entitling the holder to a $\frac{1}{200,000}$th part of all net income and proceeds of sale of the lands to be transferred (since done); (2) to transfer under a deed of trust the whole of the lands now held (about 978,053 acres in extent) to American trustees (Francis C. Farwell, Hobart C. Chatfield-Taylor and George Findlay, all of Lake Forest, Lake County, Illinois) at the valuation price of £973,859 (equal to £4 17s. 4d. per deferred ordinary share). Participation certificate holders had the option until December 4, 1915, of exchanging their certificates for a cash certificate to be issued by the trustees entitling the holder in priority to holders of participation certificates series A to £4 17s. 4d. (together with interest at 4 per cent. per annum on any unpaid portions), payable as to one-sixth with interest on January 15, 1917, and the balance in five equal yearly payments with interest or, at the option of the trustees, at any earlier dates. The deed of trust dated June 4, 1915, provides for the complete winding-up of the trust within fifteen years, or as soon as a complete

realisation has been effected. Against the share capital of £833 6s. 8d. in ordinary shares and £276,666 13s. 4d. in deferred ordinary shares the company owns bills receivable, cash and other assets. Any further sums which may become available for capital repayment are to be applied in the first place in repaying the balance of the deferred ordinary shares, after which any surplus assets are to go—as to one-fourth to the ordinary shares and three-fourths to the deferred shares.

The accounts are made up annually to December 31, and those for 1913 were submitted in December, 1914. There has been no dividend on the shares for many years past. Certain matters involving large sums are in dispute between the company and certain parties to whom the ranch was formerly leased, and litigation is proceeding, and an excess of expenditure over receipts of £62,783, accumulated over a period of several years to the end of 1913, has been placed to suspense account pending a settlement.

Voting power, one vote for each share of either class. Director's qualification, 50 ordinary shares and 50 deferred shares. Transfer form, common; fee, 2s. 6d. per deed. Telegraphic address, Ranchero, Cannon, London. Telephone number, 6379 City.

Cedulas.—Cedulas are bonds to bearer, issued by certain Argentine mortgage banks, and paid in lieu of cash upon the mortgage of freehold property. The borrower receives cedulas at par, as a loan upon the property mortgaged, and he contracts to pay to the issuing bank the interest (which varies according to the series) and certain other charges. The cedulas so issued are then disposed of by the borrower at market price, and he has the option to redeem the mortgaged property at any time by payment in cedulas at face value, or in cash (gold or currency as the case may be). Two classes of cedulas were formerly known here—those issued by the Argentine National Mortgage Bank, and those issued by the Mortgage Bank of the Province of Buenos Ayres, but under agreement come to late in 1906 the latter were converted into Buenos Ayres province sterling bonds. The cedulas of the National Mortgage Bank (Banco Hypotecario Nacional) have the guarantee of the nation. They are in bonds of $50, $100, $200, $400, $500 and $1,000, and with the exception of the A gold, are in currency. Laws have since been passed sanctioning further large issues. The interest both on the currency and gold series has been duly paid. The following are the particulars :—

Schumacher (Johannesburg) and L. Wagner. *Managers:* F. Heim and P. Troquet in London, and H. C. Boyd and E. A. Wallers in Johannesburg. *Secretary:* L. Bluen. *Transfer Secretary:* A. Moir. *Office:* 1, London Wall Buildings, E.C.—The company was registered May 9, 1905, and absorbed the African Ventures Syndicate, Limited. In 1908-9, partly with a view to providing for depreciation in investments, the capital was largely reduced—by writing off £4 per share (£1,200,000) as lost, and returning £4 per share to the shareholders, the latter sum, however, being paid in $4\frac{1}{2}$ per cent. debentures (since redeemed). In 1911, chiefly for the purpose of acquiring part of the assets and the businesses of Messrs. Wernher, Beit and Co., of London, and of Messrs. H. Eckstein & Co., of Johannesburg, the capital was increased by £1,500,000. The authorised capital is now £5,100,000 in shares of £12, all allotted and paid up.

In 1913 the operations realised a net profit of £417,393, making, with £72,197 brought down, a total credit balance of £489,590, and after appropriating a reserve fund of £140,000, writing down shares, interests and investments by £555,275, and transferring £50,000 to depreciation reserve account there remained a sum of £24,315 to be carried forward; and in 1914 a net profit of £290,797 was realised, increasing the amount brought down, after deducting the dividend of 6s. per share, to £187,613, to which was added a depreciation reserve of £500,000, and of the then total of £687,613, £663,074 was absorbed in writing off on account of investments, shares and other interests, and the balance of £24,539 was carried forward. In the report, submitted in May, 1915, it was stated that "as under the present exceptional circumstances quotations cannot be said to reflect stable or intrinsic values, your directors have this year departed from their usual practice of revaluing all assets on the basis of prices ruling at the end of the corporation's financial year." Dividends are paid free of income tax. Voting power, one vote for each share. Director's qualification, shares to the nominal amount of £1,200. Transfer form, common; fee, 2s. 6d. Charter Trust and Agency, Limited.—*Directors:* R. H. Benson (Chairman), H. W. Fox, J. H. Newcomb (Managing Director) and Hon. S. Peel. *Secretary:* E. J. Lake. *Office:* 24, Throgmorton Street, E.C.—The first company of this title was registered January 30, 1902, to carry on a trust and agency business principally in connection with the field of operations of the British South Africa Company. In 1907 it was decided to reconstruct the undertaking, and two companies were registered—the Charter Trust and Agency, Limited, on November 30, 1907, to acquire the more liquid assets; while the remainder of the undertaking was transferred to the Trust and Agency Assets, Limited, registered October 16, 1907 (a notice of which appears elsewhere), with a view to such assets being nursed and ultimately realised. For every 10 shares in the old Charter Trust and Agency, Limited, there were issued six fully-paid shares of £1 each in the new company of that title, and four £1 fully-paid shares of mortgage debenture stock of the Trust and Agency Assets, Limited, the whole of the share capital of which (£1,000) is held by the Charter Trust and Agency, Limited (new company). Early in 1911 it was decided to convert the then existing 750,000 £1 shares into £500,000 preference stock and £250,000 ordinary stock, and to create and issue a further 250,000 ordinary shares of £1 (to be converted into stock on being fully paid), and the authorised capital is now £500,000 in preference stock and £500,000 in ordinary stock, all of which has been subscribed and paid up. The preference stock ranks for cumulative dividends of 5 per cent. per annum, and for priority as regards capital, together with any arrears of dividends, without further participation. At November 30, 1914, there were loans at short notice against securities for £475,331. There is also $4\frac{1}{2}$ per cent. debenture stock for £92,570, part of £300,000 offered in April,

1914, at 98 per cent., with interest payable June 1 and December 1, and the principal repayable at par on June 1, 1944, or, at the option of the company, in whole or in part, on any interest date after June 1, 1919, at 102 per cent. on six months' notice, or at the same price in the event of liquidation for reconstruction or amalgamation, with power to the company to purchase stock at any time at 102 per cent. Further debenture stock, ranking pari passu with the above, may be issued up to a sum not exceeding the nominal amount of the capital of the company.

The accounts are made up annually to November 30, and submitted in January. For 1907-8 the dividend was 6¼ per cent.; for 1908-9 and 1909-10, 7½ each year on the shares before conversion; for 1910-11 and 1911-12 the ordinary stock received 7½ per cent. per annum; for 1912-13, 5; and for 1913-14, 3. Reserve account, £64,644; carried forward, £6,821. In their report, submitted in February, 1915, the directors stated that "in the absence of official quotations on November 30, 1914, no reliable valuation can be made of the investments." No interim dividend was paid on the ordinary stock on account of 1914-15. The preference dividend is paid half-yearly in February and August. Voting power, one vote for every £1 of stock of either class. Director's qualification, £600 of stock of either class. City of San Paulo Improvements and Freehold Land Company, Limited.—*Directors:* Lord Balfour of Burleigh, K.T. (Chairman), J. Bouvard (Vice-Chairman), C. Braga, H. E. Cradock, G. De Cerjat, H. Guedalla, A. D. Gurd (Managing Director), R. de Livio, R. Peto, Dr. H. B. Sabino, Lt.-Col. Sir G. Smith, K.C.M.G., and L. R. Vigers. *Secretary:* H. E. Carter. *Office:* 2, Broad Street Place, E.C.—The company was registered September 25, 1911, and acquired, with a view of selling or renting, freehold land 14,807,697 square yards in extent, situated in the western district of the City of San Paulo, Brazil. The authorised capital is £2,000,000 in shares of £10, all of which has been subscribed and called up, including 198,500 shares issued fully paid. In November, 1911, there was offered for sale on behalf of the purchasers, by Lloyds Bank, Limited, 72, Lombard Street, E.C., and Messrs. Boulton Brothers and Co., 39, Old Broad Street, E.C., £800,000 6 per cent. first mortgage gold bonds to bearer of £100 and £20 each, at the price of 98½ per cent., and the balance of £1,200,000 (making up the total authorised of £2,000,000) was offered for sale on the Continent. Coupons on the bonds are payable March 31 and September 30 (free of income tax), and the principal is repayable at 105 per cent. from a cumulative sinking fund, commencing in 1916, and to be applied to annual drawings, such sinking fund being calculated as sufficient to repay the bonds by September 30, 1953, on which date all outstanding bonds are to be paid off, while the company retains the right of repayment at any time previously at 105 per cent., on six months' notice, which is also to be the price of redemption in the event of liquidation for the purpose of reconstruction or amalgamation. The bonds are secured by a first mortgage on the lands owned, and a proportionate amount of the proceeds of any lands sold is to be handed to the trustees for account of the bondholders. In 1912 and 1913 second mortgage 6 per cent. debentures of £20 and £100 each for £252,630 (less £25,270 since surrendered) were issued to the vendors under their guarantee of interest on the first mortgage debentures (referred to below), with interest payable March 31 and September 30, and the principal repayable June 30, 1932. The vendor guaranteed interest on the first mortgage bonds for the five years to September, 1916, and agreed to deposit cash or securities to the amount of £600,000 to serve as a guarantee fund for the due fulfilment of this obligation, while in the event of such funds being utilised the vendor agreed that repayment might be effected in 6 per cent. second debentures of the company; a deposit under this guarantee was made in securities, which are still under deposit, and the vendor has obtained an injunction preventing the City of San Paulo Improvements Company from dealing with such securities for the present.

The accounts are made up annually to December 31, and submitted in May. The development of the properties is being proceeded with, and some land sales are being effected, the total of such sales in the year 1913 having been 60,254 square metres for £32,470, leaving 12,282,844 square metres unsold at the end of the year. In respect of the period of fifteen months to December 31, 1912, and the year 1913, interest on the first and second mortgage debentures was paid—as regards the first mortgage under the vendor's guarantee—and the second mortgage debentures were issued against the amount of the guarantee of first mortgage debenture interest so far called. Including all general expenditure, and interest on both classes of debentures, and after making provision for English and French taxes, less £4,236 interest on deposits, and £12,004 (representing second mortgage debentures for £12,635 surrendered by the vendors in part consideration for the payment of interest on the first mortgage debentures free of income tax), there was a deficiency for the year 1913 of £146,631, increasing a debit to expenditure on development account brought down to £322,994. Interest on the first and second mortgage debentures due September 30, 1914, and since has not been paid. A scheme was put forward in the summer of 1915, under which an issue of 5½ per cent. prior lien bonds for £750,000 was to be created, and bonds of this issue were to be issued in satisfaction of first mortgage debenture interest due from September 30, 1914, to March 31, 1919, both inclusive, but this scheme was subsequently withdrawn. No later accounts than those for 1913 have been issued, but this notice has been officially revised.

Voting power, one vote for each share. Director's qualification, £1,000 of shares. Transfer form, common; fee, 2s. 6d. Telegraphic address, Prevailing, London. Telephone number, 160 London Wall. The debentures are quoted in the official list; latest price, 40⅓.

Subject to provision for reserve fund, the ordinary shares are entitled to a dividend of 6 per cent. per annum out of the net profits of each year before any dividend is paid on the deferred shares; the balance of profit available for distribution over and above such dividend of 6 per cent. is to be divided—as to 50 per cent. among the holders of ordinary shares, and as to 50 per cent. among the holders of deferred shares. The accounts are made up annually to October 31, and submitted in December. The company has so far confined its attention to Roumania, owning a three-tenths interest in a syndicate holding a property in that country, on which a well has been sunk; a contract

has been entered into for the transfer of this property to a new company, but in their report, submitted in December, 1914, the directors stated that "owing to the outbreak of war no further progress can be made for the present." Voting power, one vote for each ordinary or five deferred shares. Director's qualification, 100 ordinary shares. Transfer form, common; fee, 2s. 6d. Telephone number, 5321 Bank.

Consolidated Trust, Limited.—*Directors:* A. A. Baumann (Chairman), J. S. Austen, C. Bishop, E. Heseltine, W. J. P. Mason and Lord St. Davids. *Acting Secretary:* W. R. Jones. *Office:* Dashwood House, E.C.—The company was registered April 3, 1889. The authorised capital was £1,000,000, of which £700,000 was allotted and paid up, and converted into £490,000 preferred stock, and £210,000 deferred stock, the former ranking first for cumulative dividends of 4½ per cent., with a preferential charge as to capital. In 1895 one-half the deferred stock was written off, and this sum was carried to a depreciation in investments account, and, at the same time, the preferred stock was divided into equal proportions of first and second preferred stock. The authorised capital is now £916,000 in stock, of which £616,000 has been subscribed and paid up, being divided into £245,000 first preferred, £245,000 second preferred, and £126,000 deferred; of the latter amount £21,000 was issued as a bonus of 20 per cent. in May, 1913. As from April 15, 1912, a scheme for the modification of the rights of the second preferred stock and the deferred stock was carried out, under which the dividend on the second preferred stock was increased from 5 to 5½ per cent. in consideration of holders releasing in favour of the deferred stock certain rights which they had to surplus assets in a liquidation. The first preferred stock ranks for fixed cumulative dividends of 4 per cent. per annum, the second preferred ranking next for cumulative dividends of 5½ per cent. per annum, any balance going to the deferred, while in the event of liquidation the first preferred ranks before the second preferred and the deferred for full repayment, with 4 per cent. cumulative interest, and the second preferred has similar priority over the deferred, which is to take all the surplus assets. Power is taken to issue debenture stock to an amount equal to the paid-up share capital, and this has been fully exercised to the extent of £616,000 in 4¼ per cent. perpetual debenture stock, issued in February, 1890, and since with interest payable February 1 and August 1.

The accounts are made up annually to April 15, and submitted in May. For 1904-5 the deferred got 1½ per cent.; for 1905-6, 2½; for 1906-7, 3; for 1907-8, 5; for 1908-9, 6; for 1909-10, 8; for 1910-11, 10; for 1911-12, 15; for 1912-13, 35, including a bonus of 20 per cent. in deferred stock; and for 1913-14 and 1914-15, 15 each year. Capital reserve, £76,706; revenue reserve, £15,000; carried forward, £2,012. On account of 1915-16 4 per cent. was paid on the deferred in November. The preferred dividends are paid half-yearly.

Touche, M.P. *Joint Secretaries:* A. Riddel and H. R. After providing for depreciation and meeting the preference dividend, the founders' shares now rank on net profits for a sum equal to 3 per cent. upon one-half the amount for the time being standing to the credit of the reserve; the ordinary stock is then to take not exceeding 7 per cent., while surplus profits are to be carried to reserve until that fund amounts to £600,000. Such reserve shall belong in equal portions to the ordinary stock and founders' shares, and when the sum standing to the credit of the reserve reaches £600,000 one-half is to be distributed to the founders' shareholders, after which all special rights of the founders' shares are to cease. The authorised share capital is now £2,000,000, and the company's borrowing powers are limited to the amount of the paid-up capital for the time being. There are also deposits, the amount of which, however, is not stated separately in the accounts. The following issues have been made:—

£999,900 Ordinary stock.
£100 Founders' shares of £5, fully paid, all held by the Debenture Corporation Founders' Share Company, Limited.

The directors in their report for the year 1914 stated that "in the circumstances now prevailing it is not possible to submit a reliable valuation of the investments held by the corporation." Eastern Mortgage and Agency Company (1902), Limited.—*Directors:* A. F. P. Roger (Chairman), A. H. King and Capt. the Hon. R. E. Philipps. *Secretary:* G. A. Williams. *Office:* Dashwood House, New Broad Street, E.C.—The company was registered June 19, 1902, in reconstruction of a company of almost similar title, registered February 5, 1890, to carry on business in India, Burmah, Straits Settlements, &c. The main objects of the reconstruction were to extinguish a debit to profit and loss, through shrinkage in the value of silver, and a liability on the shares, and the capital was in consequence largely written down. The authorised capital is now £100,000, £42,180 being in 5 per cent. cumulative preference shares of £2, ranking also for priority as to capital, £57,570 in ordinary shares of 10s., and £250 in founders' shares of £1, the last mentioned being entitled to half the surplus profits after payment of 8 per cent. per annum on the ordinary, and all the preference and founders' shares and £28,428 10s. of ordinary have been subscribed and are fully paid. The company has borrowing powers up to £365,450, including £50,000 (none issued) to rank in priority to the debenture stocks, and there have been issued —4½ per cent. first debenture stock (secured under a trust deed) for £210,000, with interest payable May 15 and November 11; and 4½ per cent. second debenture stock (secured under a trust deed) for £105,450, with interest payable January 1 and July 1, while the principal of both classes is repayable at the company's option at par, at any time (now), on six months' notice.

The accounts are made up annually to December 31, and usually submitted in April. There has been no dividend on the preference shares for several years, and at December 31, 1914, the arrears amounted to 62½ per cent.; interest charges have been regularly met, but at the close of 1914 there was a debit to revenue account of £11,536, including a debit of £7,242 brought down, and there was also "deficit on realisations and estimated other losses, £84,760." The directors in their report for 1914 stated that "no valuation of the London investments has been made this year, as in the present abnormal conditions the directors consider that any estimate made would be entirely unreliable." Voting power, four votes for every preference share, one vote for every ordinary share, and two votes for every founders' share. Director's qualification, £250 in shares of any class. Transfer form, common; fee, 2s. 6d. per deed; debenture stock is transferable in sums of £1 and multiples, the minimum holding allowed being £5. The debenture stocks are quoted in the official list. Ecuador Land Company, Limited.—*Directors:* B. E. Bishop, A. A. Adams (Secretary) and D. C. Stapleton. *Office:* 16-17, Devonshire Square, E.C.—The company was registered March 25,

1859, to take over the estates (represented by land warrants, the aggregate of which was £566,120) allotted to the Ecuadorian bondholders. The capital is £10,280 in fully-paid shares of £2, and there are 6 per cent. debentures for £10,000. The company has also issued certificates of £100 each in exchange for land warrants; some of these certificates have been redeemed, and at December 31, 1914, there were certificates for £95,700 outstanding. Profits derived from dealing with the lands are to be divided in certain fixed proportions between the holders of the company's certificates and shares. The accounts are made up annually to December 31, and submitted about August. The company has obtained possession of only about 200,000 out of 1,200,000 cuadras of the lands (a cuadra being equal to nearly $1\frac{3}{4}$ acres) to which it is entitled. No distribution has yet been made on either the shares or certificates, and debenture interest due June 30, 1909, and since is in arrear. One of the estates (100,000 cuadras) has been leased to a company, and practically nothing is being done in regard to the other. To the end of 1914 there was a debit to profit and loss, after charging debenture interest, of £20,554, including £19,684 brought down. Voting power, one vote for every share up to 10 shares, and an additional vote for every 5 shares beyond. Director's qualification, 50 shares. Transfer form, common; fee, 2s. 6d. Cable and telegraphic address, Pailon, London. Telephone number, 1867 Central.

In their report dated March 20, 1897, the directors stated that the Ecuador government had "arbitrarily taken possession of part of the town lands of San Lorenzo, the most valuable part of the Pailon estate, held by the company since 1861." An appeal has been made to the British Foreign Office, and the company's claim is still being investigated.

Ecuadorian Corporation, Limited.—*Directors:* B. Newgass (Chairman), F. Becerra, D. L. Honeyman, S. H. Lever, C. A. Spofford and A. Weir. *Secretary:* J. H. Wilson. *Office:* 18, St. Swithin's Lane, E.C.—The company was registered April 19, 1913, and has acquired various properties and interests in Ecuador, partly through share holdings and debentures, these being in respect of a brewery, a bank, tramways, water power, land, electric light and power, &c. The authorised capital is £500,000 in shares of £1, of which £283,763 has been issued and all but 19s. per share on 1,007 shares paid up. There are also 6 per cent. first debentures to bearer, of £20 and £100 each, for £322,500 (part of £500,000 authorised), 239,705 of the shares and £68,080 of the debentures having been issued fully paid in part payment of the purchase considerations, while £254,420 of the debentures were issued at $92\frac{1}{2}$ per cent. under public prospectus in April, 1913. The debentures have coupons payable April 1 and October 1 (see below); for the purpose of providing a sinking fund for the debentures there was to be set aside on January 1 of each year, commencing with 1915, a sum of not less than 1 per cent. of the debentures issued, together with 1 per cent. of all debentures redeemed, such fund to be applied to the purchase of debentures in the market, or by tender under 105 per cent., or by drawings at that figure, while the company reserved the right to pay off the debentures at 105 per cent., in whole or in part, at any time on six months' notice, and in the event of voluntary liquidation for the purpose of amalgamation or reconstruction, they are to be payable at 105 per cent. and accrued interest. Holders of the debentures for £254,420 (publicly allotted) have now the right, in exchange for the talon attached to each debenture, to receive by way of commission twenty fully-paid shares in respect of each £100 debenture, and four like shares in respect of each £20 debenture. The debentures are secured by a first floating charge on the present and future assets and undertaking of the corporation. The trust deed provides that until a reserve fund of not less than £150,000 has been created no dividend in excess of 6 per cent. shall be paid on the share capital, and whenever the said fund is under this amount the debenture holders will have the right of nominating two directors.

The accounts are made up annually to July 31, and submitted in November. In respect of the period to July 31, 1914, after meeting debenture interest, there was a credit balance of £260, which was carried forward; and for 1914-15, after charging debenture interest and interest accrued on the deferred coupon of October, 1914, there was a surplus of £636, increasing the credit to profit and loss to £896. Voting power, one vote for every share. Director's qualification, 200 shares. Transfer form, common; fee, 2s. 6d. Telegraphic address, Ecudoracor, Cannon, London. Telephone number, 1574 Central.

Owing to the cessation of exchange between London and Guayaquil it was impossible to remit the necessary funds to London for the payment of the interest due on the debentures on October 1, 1914, and at a meeting of bondholders in December, 1914, it was agreed to postpone payment of the coupons due October 1, 1914, until June 1, 1915, while at a meeting in April, 1915, it was agreed to postpone payment of the October, 1914, coupons until April 1, 1917, or such earlier date as may be determined upon by the corporation, the instalment of interest so postponed (less income tax) to carry interest at the rate of 6 per cent. per annum from October 1, 1914, until the date of payment. Moreover, it has been agreed to release the corporation from its obligation to pay to the credit of the trustees the sums specified for the sinking fund in respect of January 1, 1915, 1916, 1917, 1918 and 1919. Interest due April 1 and October 1, 1915, was met in cash at due date.

Goldsbrough, Mort and Co., Limited.—*London Manager and Secretary:* A. J. Pugh. *London Office:* Leadenhall Buildings, E.C. *Head Office:* Melbourne.—The company was formed in 1881 to amalgamate the businesses of the Australasian Agency and Banking Corporation, Limited, and Messrs. R. Goldsbrough and Co., both of Melbourne, and as from July 1, 1888, the business of Mort and Co., Limited, of Sydney, was taken over, the name being then changed as above. On June 24, 1893, the company suspended payment, and reconstruction was then carried through, a new company being registered under the Victorian Companies Act on August 22, 1893, and business was resumed on August 31, 1893. In 1895 it was found necessary to still further modify the relations between the company and the debenture holders, and a fresh plan was carried through without liquidation or

suspension of payment; in 1901 a further rearrangement of affairs took place, the then entire ordinary capital being written off, while the preference shares were reduced, were converted into ordinary, and subdivided, and 40 per cent. of the then B debenture stock was written off. Under the reconstruction scheme of 1893 £225,000 was written off the share capital, by the plan of 1895 about £223,000, and by the plan of 1901 about £393,000, besides £493,000 of the B debenture stock. In 1910 it was decided to capitalise some of the undivided profits, and the capital was increased by the creation of 319,426 shares of 5s. each, which were allotted to the shareholders, as a bonus pro rata, payment being provided by a transfer of £79,856 10s. from the "balance forward." The existing shares of £1 15s. each, and the new shares of 5s. each, were then consolidated into £2 shares, and subsequently subdivided into shares of £1 each.

The authorised capital is now £798,565 in shares of £1, of which £702,737 has been issued and paid up. There are also—A debenture stock for £978,280 and B debenture stock for £644,943. The A debenture stock is in multiples of £50, and the B debenture stock in multiples of £30, and each £50 and £30 respectively bears a distinctive number for the purpose of facilitating the drawings after-mentioned. Interest is payable January 1 and July 1, the A carrying interest at 4 per cent., and the B interest at 5 per cent. per annum (now the full interest on the B stock of 5 per cent. is an absolute liability of the company, and is not dependent on revenue only as formerly). Before any dividend was paid to the shareholders a reserve, to be called the primary reserve, had to be formed and maintained at £75,000 (reached in 1906) to be applied, if necessary, in payment of interest on the A and B debenture stocks, and net profits remaining were as to 25 per cent. to be carried to a reserve to be called the secondary reserve until it amounted to £75,000 (reached in 1907). No charge can be created to rank before the A and B stocks without the consent of the holders. The company has reserved power to at any time pay off the whole or any part of the A stock at 105 per cent. on giving six months' notice, and when the whole of the A shall have been paid off a similar power will arise in regard to the B stock; if only a portion of either of the stocks is to be redeemed, such portion shall be determined by drawings. There is also power to the company to purchase A debenture stock in the market. The trustees for the A stock have power to appoint one director in Melbourne.

The accounts are made up annually to March 31, and submitted in Melbourne in June, an interim dividend (in 1914 of 2½ per cent.) being paid in December. Interest on the A stock has been regularly paid, and beginning with July 1, 1901, interest on the reduced amount of B stock has also been paid, the rate for 1905-6, 1906-7, 1907-8 and 1908-9 on the latter having been 5 per cent., while for 1905-6 the shareholders received 5 per cent., and for the nine years to 1914-15 a dividend of 10 per cent. each year was paid, with bonuses of 1s. per share for 1908-9, 1s. 9d. per share for 1909-10, 2s. per share for 1910-11 and 1911-12, and 1s. per share for 1912-13 and 1913-14, besides a special bonus in 1910 at the rate of one 5s. share for every 35s. share, and in 1911 of one share in respect of every ten shares held. Primary reserve, £100,000; secondary reserve, £75,000; general reserve, £225,000; carried forward, £92,880. There is a register of shares in London, where the debenture stock register is also kept. Transfer form in London, common; fee, 2s. 6d. per transfer. A debenture stock is transferable in amounts of £50 and multiples, and B stock in sums of £30 and multiples. Voting power, one vote for every £10 of shares. Telegraphic address, Goldsbrough, London. Telephone number, 4179 Avenue. The company is quoted in the official list. Latest prices—shares, 31s.; A debenture stock, 71½; B ditto, 81.

Government and General Investment Company, Limited.—*Directors:* J. S. Austen (Chairman), A. M. Asquith, G. T. Moody and Maj.-Gen. I. Philipps, D.S.O., M.P. *Manager and Secretary:* H. Simmonds. *Office:* 104, Dashwood House, E.C.—The company was registered December 20, 1888, but it was not until a year later that shares were offered for public subscription. In 1900 40 per cent. was written off the nominal amount of the deferred stock and founders' shares, and in 1909 a scheme was carried through by which the £600 paid up of founders' shares was converted into an equivalent amount of deferred stock, and participating certificates were issued to the extent of 60 per cent. of the deferred stock and founders' shares to compensate the holders for the capital written off in 1900. The authorised capital is now £449,800, of which £124,500 has been issued in preferred stock, and £75,300 in deferred stock, besides which there are participating certificates outstanding for £40,923. Under the rearrangement of 1909, after meeting the preferred dividend the deferred stock ranked for 6 per cent. per annum, and all surplus profits (subject to certain stipulations as to reserve) were to be applied to interest, limited to 4 per cent., and to redemption, of the participating certificates. In 1913, however, the relations between the deferred stock and the participating certificates were altered. The preferred stock, as formerly, ranks first for cumulative dividends of 4 per cent. per annum, with a priority as to capital, and surplus profits (subject to certain stipulations as to reserve) are to be applicable (1) in payment of 6 per cent. cumulative dividends on the deferred stock; (2) in providing an annual sum of £2,520 as a surplus fund for the participating certificates, to be applied in payment of interest at 5 per cent. per annum on the certificates, and the balance in the redemption of the certificates by tender at prices below par, or by drawings at par; and (3) in payment of further dividend on the deferred stock, or, at the discretion of the directors, in the purchase for cancellation of participating certificates; after the redemption of all the participating certificates, all profits, after meeting the preferred dividend, and subject to appropriations for reserve, are to go to the deferred stock. In January, 1906, an issue of £100,000 4 per cent. debenture stock was made at par, subject as regards property to an outstanding balance of £1,000 of pre-existing 4 per cent. debenture stock; the stock is secured by a trust deed giving a floating charge over the company's property and assets, and the amount may be increased up to the level of the preferred and deferred capital for the time being; interest is payable June 1 and December 1, and the stock is to be redeemed on December 1, 1975, at par, but the company has reserved the option of redemption at any time after December 1, 1915, at 103 per cent. on six months' notice, while in the event of the company going into voluntary liquidation before December 1, 1975, for reconstruction, amalgamation, or any other purpose, the stock is to be paid off at 103 per cent. There are also deposits, &c., for £68,522.

The accounts are made up annually to November 30, and submitted in December. For 1904-5

the deferred stock got 5 per cent.; for 1905-6, 5½; for 1906-7, 6; for 1907-8, 7; for each of the four years to 1911-12, 6, to which rate it was then limited; and for 1912-13 and 1913-14, 12 (the relations to the deferred stock and the participating certificates having been altered in 1913). Reserve fund, £56,832. In the report for 1913-14 it was stated that "no valuation of the investments has been made this year, as the directors consider that any valuation made at the present time would be entirely fallacious." On account of 1914-15 4 per cent. was paid on the deferred stock in June. The preferred dividend is paid half-yearly in June and December. Voting power, one vote for every £10 of either preferred or deferred stock. Director's qualification, £1,000 of either preferred or deferred stock. Transfer form, common; fee, 2s. 6d. per deed; the preferred stock is transferable in multiples of £5, and the deferred in multiples of £1. Telegraphic address, Furcation, Ave, London. Telephone number, 4936 Central. The company is quoted in the official list. Latest price of preferred, 70.

Hudson's Bay Company.—*Governor:* R. M. Kindersley. *Deputy-Governor:* C. V. Sale. *Committee:* R. Burbidge, L. D. Cunliffe, C. Lubbock, Sir W. Mackenzie, Kt. (Toronto), A. M. Nanton (Winnipeg), T. H. Skinner and V. H. Smith. *Secretary:* F. C. Ingrams. *Office:* 1, Lime Street, E.C.—The company was incorporated in 1670, and in 1863 was reconstructed with a capital of £2,000,000 in fully-paid shares of £20; and in 1884, 1892 and 1912 obtained supplemental charters. By the 1912 supplementary charter power was obtained to subdivide the ordinary shares, preference shares were created, and the borrowing powers of the company on debenture stock were increased, while the allocation of a fixed portion of the proceeds of the sale of land to a capital reserve fund was made obligatory. In 1870 the company surrendered to the Canadian government its territorial rights, receiving therefor—£300,000 in cash; the right to select a block of land adjoining each of its stations; and the right for fifty years from 1870 to retain in any township or district within the fertile belt, in which land is set out for settlement, grants of land not exceeding one-twentieth part of the land so set out, the Hudson's Bay Company to pay a rateable share of the survey expenses. By the terms of the deed of surrender, and subsequent agreements relating thereto, the fertile belt is to be bounded as follows: on the south, by the United States boundary; on the west, by the Rocky Mountains; on the north, by the northern branch of the Saskatchewan; on the east, by Lake Winnipeg, the Lake of the Woods, and the waters connecting them. By the Dominion Lands Act it is enacted that the company's twentieth shall be composed of the whole of sections 8 and 26 in every fifth township, and in each and every other township the whole of section 8 and the south half and north-west quarter of section 26 throughout the fertile belt. It is estimated that the area of the fertile belt is 140,000,000 acres. To March 31, 1915, 6,367,848 acres had already been received, of which 2,187,187 acres had been sold, deducting cancelled sales (amount of instalments and interest owing in respect of lands sold on March 31, 1915, $8,214,727), leaving on hand 4,101,756 acres (the town sites held by the company are valued for taxation by the municipal authorities at $23,749,823); in the year to

March 31, 1915, 16,400 acres of farm land were sold for $306,550, and town lots were sold for $17,736. The sales of farm lands and town lots in the six months to September 30, 1915, amounted approximately to £66,900, payable over a term of years, and cash receipts to £72,000, as compared with sales for £23,700 and cash receipts for £127,300 in the corresponding period of 1914. The above sum of £300,000 was in 1870 applied to the reduction of the capital to £17 per share, and further payments have been made of £7 per share from the proceeds of subsequent land sales, reducing the shares to £10, and these in 1912 were subdivided into the denomination of £1. The authorised capital is now £3,000,000, £2,000,000 being in preference shares of £5, and £1,000,000 in ordinary shares of £1, and the entire capital has been subscribed and paid up. The preference shares have a priority as to capital, without further participation, and rank first for 5 per cent. cumulative dividends. There is no liability to calls. Proceeds of land sales (except $2 per acre which by the 1912 supplementary charter is placed to capital reserve fund) are now included with the company's general revenue, and may be applied in the payment of dividends, provided the directors are satisfied that the value of the unsold lands together with the other assets of the company, other than the capital reserve fund, are sufficient to meet the liabilities of the company, including the then capital. Under the supplemental charter of 1892, amended in 1912, the company has power to issue debentures not exceeding the amount of £2,000,000 if at any time such a course should be thought desirable.

The sale-shop accounts are now made up annually to January 31, the land accounts to March 31 of the current year, and the fur trade accounts to May 31 of the preceding year, and are submitted to a meeting held late in June or early in July, an interim dividend being usually paid in January—none, however, in 1915. The recent dividends have been—For 1901-2, 15s., with a bonus of 7s. 6d. ; for 1902-3, £1 2s. 6d., with a return of £2 capital out of land sales ; for 1903-4, £1 15s., with a return of £1 capital out of land sales, reducing the shares to £10 each ; for 1904-5, £2 18s., but no return of capital ; for 1905-6, £4 ; for 1906-7, £4 5s. ; for 1907-8, £3 ; for 1908-9, £2 10s. ; for 1909-10, 1910-11 and 1911-12, £4 (on shares of £10) ; for 1912-13, 10s. (on shares of £1), 4s. from trading profits, and 4s. from land sales ; and for 1913-14, 8s., all from land sales, and not subject to income tax. For 1914-15 the preference dividend was paid, but there was no distribution on the ordinary ; in the land department a credit balance of £51,928 brought down was increased to £54,625, which was carried over, while the profit and loss account (trading, furs, &c.) showed a gross profit on sale-shops and other trading of £63,407, and a loss on fur trade (outfit, 1913) of £33,536, and after including profits on rents (£31,830), on fire and marine insurance risks (£3,479), and interest and transfer fees (£19,626), and charging vendor expenses, income tax, and the preference dividend, &c., a credit balance of £168,531 brought down was reduced to £108,306, which was carried forward. Capital reserve fund, £108,376 ; sale-shops extension fund, £300,000 ; insurance fund, £70,000. No credit is taken in the balance sheet for the instalments and interest payable to the company or for town sites and farm lands held. The preference dividend is paid half-yearly—January 1 and July 1.

Voting power, one vote for every 50 ordinary or preference shares, held for six months, but holders of the preference shares only vote if the dividend is in arrear for not less than six months, or upon a resolution for the winding up of the company, or for a reduction of the capital, or for the return of capital ; maximum, 400 votes. Transfers are to be made out on common forms, with the full title of the company ("The Governor and Company of Adventurers of England Trading into Hudson's Bay") ; fee, 2s. 6d. per deed. Telegraphic address, Beaver, Led, London. Telephone numbers, 3324 and 3325 Avenue. The company is quoted in the official list. Latest prices—ordinary, $6\frac{7}{16}$; preference, 94s. 6d.

In 1915 it was found that the Pará Gas Company could not continue operations as an independent company unless additional funds to a substantial amount were forthcoming, and, as a result of negotiations, the Pará Electric Railways and Lighting Company, Limited, took over the gas undertaking, and, in exchange for the International Lighting Association's shareholding in the Pará Gas Company, it has received 825 6 per cent. cumulative preference shares of £5 each of the Pará Electric Railways and Lighting Company, Limited, and the sum of £1,031 5s. in cash, while £16,500 of new 5 per cent. debentures of the Pará Gas Company, containing the obligation of the Pará Electric Railways and Lighting Company for the payment of principal, interest and sinking fund, have been received in exchange for the surrender of debentures for a similar amount held in the Gas Company. In their report for the year 1914, submitted in October, 1915, the directors of the International Lighting Association stated that, by the above exchange of Pará Gas shares for preference shares of the Pará Electric Company and cash, the accounts of the association to December 31, 1915, would show a considerable loss of capital, and the directors were accordingly unable to make payment of

the preference dividend for the half-year to June 30, 1915. It has therefore been decided to write off 15s. per share from the 41,005 issued ordinary shares, and that, as from July 1, 1915, the preference shares shall be entitled to a cumulative dividend of 5 per cent. per annum, in place of 6 per cent. per annum, with the right to receive a further 1 per cent. per annum in any year after a dividend equal to 10 per cent. per annum has been paid on the reduced ordinary capital. This scheme now awaits the sanction of the court.

Marling and H. M. Clowes. *London Agent:* British and Overseas Agency, Limited, 4, Moorgate Street, E.C.—The company was formed in July, 1912, under the laws of the Dominion of Canada to acquire 31,053 acres of freehold farm lands in the Kindersley District, in the Province of Saskatchewan, Canada. The authorised capital is $600,000 in shares of $100, of which $590,000 has been issued credited as fully paid. In July, 1912, £118,000 6 per cent. registered first mortgage debentures of £50, £100 and £500 each were offered for sale through the Union Bank of Canada, 6, Princes Street, E.C., at par, purchasers having been entitled, on payment in full, to a bonus of 50 per cent. face value of shares; the debentures are secured by a first fixed mortgage on the lands acquired, and a floating charge on the whole undertaking and assets, and the trust deed provides that all proceeds of sales and the interest payments on instalments are, after deduction for working expenses and agents' commissions, to be paid to the trustees to provide for interest on the debentures, and for redeeming the debentures, either by purchase in the market at or under 102½, or by drawings at that price, while all debentures which have not been redeemed by August 1, 1922, are then to be paid off at 102½, which is also to be the price of redemption in the event of voluntary liquidation; the interest dates of the debentures are February 1 and August 1, and payments have been made by the Union Bank of Canada, at the London office as above, or in Canadian currency, at the fixed exchange of $4·86⅔ to the £, at the bank's office in Winnipeg. It was stated in the prospectus of July, 1912, that, of the 31,053 acres of land acquired, there had already been sold 17,600 acres at the rate of $22·60 per acre, these lands having been disposed of on the instalment system spread over a period of eight years with 6 per cent. interest on all deferred payments. The purchaser of these 17,600 acres duly met all instalments, including interest, up to April 1, 1914, but defaulted in the payment of the instalment due December 1, 1914, and, as a consequence, the company found itself unable to meet debenture interest due February 1, 1915. A meeting of the debenture holders was held in March, 1915, when it was agreed that the directorate (which was reformed, and now entirely consists, under agreement, of representatives of the debenture holders) should have power to withhold or postpone the payment of interest on the debentures, or to fund the same, the rate of such interest being raised from 6 to 7 per cent., from February 1, 1915; the debenture holders further sanctioned the creation of an issue of 7 per cent. prior lien debentures, limited to £10,000, the proceeds of which are to be applied mainly to the payment of taxes and current expenditure, and, to October, 1915, £4,000 had been issued. The accounts are made up annually to July 31, and those for 1913-14 were submitted in Winnipeg in July, 1915. Debit to profit and loss on July 31, 1914, $19,812. Lake Copais Company, Limited.—*Directors:* W. S. Poole (Chairman), D. G. Bruce-Gardyne, E. W. P. Foster, C.M.G., M. Van Raalte and W. Wingfield. *Secretary:* A. C. Whitmee. *Office:* 62, London Wall, E.C.—The company was registered June 11, 1887, and is a reconstruction of a French undertaking. The French company acquired a concession granted by the Greek government for the draining of Lake Copais, Greece, and the utilising of the lands so reclaimed, covering an area of about 56,000 acres. The Lake Copais was to be drained into two other adjacent lakes, and the company is to have the right to use the waters stored up in these lakes as the result of the drainage, and the power resulting therefrom. The works are now finished. In February, 1888, and December, 1889, the company made an issue of £300,000 of 6 per cent. debentures, on which, however, default took place in June, 1893, and the company went into liquidation with a view to reconstruction. A scheme was formulated, and has since been carried out, the liquidation proceedings having been stayed.

Under the plan of 1901 the authorised share capital of £1,000,000 in shares of £10 (all now of one class), of which £655,570 had been issued as fully paid, was not affected; the company has created £70,000 of prior lien bonds, £150,000 of second prior lien bonds, £198,000 of A debenture stock, and £237,000 of B debenture stock, and all the first prior lien bonds have been issued (£63,300 paid), £32,415 of the second prior lien bonds has been issued and paid, and all the A and B debenture stocks have been issued against the old 6 per cent. debentures. In 1907 the rights of the A and B debenture stockholders underwent some modification. The first prior lien bonds are of £100 each, carry interest at 7 per cent. per annum, payable January 31 and July 31, and are to be repaid at par January 31, 1921, with the option to the company to redeem all or any of them (now) at any time, on six months' notice, at 105 per cent., there being also power to acquire the bonds by purchase on the market or by tender, while in the event of the company going into voluntary liquidation before January 31, 1921, the bonds are also to be redeemed at 105 per cent. The second prior lien bonds are of £100 and £20 each, have interest payable January 31 and July 31, and are repayable at par January 31, 1921 (since extended to January 31, 1936), with the option to the company, on giving six months' notice, to redeem all or any of the bonds at any time (now) at par, while there is power to at any time acquire bonds in the market. The A debenture stock carries 4 per cent. interest, payable June 1 and December 1, but is non-cumulative until for three consecutive years the full rate has been paid on the B debenture stock. The B debenture stock carries 6 per cent. interest, payable June 1 and December 1, but only out of net revenue after providing for interest on the prior lien bonds and A debenture stock, and is now permanently non-cumulative. The entire net revenue, after providing for interest charges, is to be applied in redemption of prior lien bonds and second prior lien bonds, and after they have all been paid off, 25 per cent. of the surplus net revenue in each year is to be applied—first in redemption of A debenture stock and then in redemption of B debenture stock until it shall have been reduced to £150,000, when further redemption is optional on the part of the company. The redemption of the A and B stocks is to be effected by purchase when the stock is below par, and otherwise by drawings. No mortgage can be created by the company in priority to the prior lien bonds. The properties were considerably damaged by snow and rain storms late in February, 1913, and to provide for the construction of additional flood prevention works, an irrigation system for a section of the estate, and other purposes, second prior lien bonds have been issued, increasing the amount to that given above.

The accounts are made up annually to December 31, and submitted in June or July. The area of land under cultivation at December 31, 1914, was 35,375 acres. For 1903, 1904 and 1905 only prior lien bond interest was met (the profits for those years having been seriously affected by damage by floods); for 1906 2 per cent. was paid on the A debenture stock; for 1907 3 per cent. on the A

debenture stock; for 1908 the full 4 per cent. on the A debenture stock, but nothing on the B; for 1909 1 per cent. on the A debenture stock; for 1910 only prior lien bond interest was met; for 1911 2 per cent. was paid on the A debenture stock; for 1912 the full 4 per cent. was paid on the A debenture stock and 2 per cent. on the B debenture stock, both in second prior lien bonds at par; for 1913 3 per cent. was paid on the A debenture stock in second prior lien bonds at par; and for 1914 the full 4 per cent. was paid on the A debenture stock, and 2½ per cent. on the B debenture stock, both in second prior lien bonds at par. Reserve fund, £15,781 (the sum of £2,000, if the profits allow of it, may be annually transferred to reserve after payment of interest on all the prior lien bonds —this was done in respect of 1911, 1912 and 1914); exchange suspense account, £4,509; carried forward to credit of the A debenture stock holders, £162; ditto to credit of B debenture stock holders, £393. Voting power, one vote for every share, or £2 of A or B debenture stock. Director's qualification, no holding of shares or debenture stocks required. Transfer form, common; fee, 2s. 6d. Debenture stocks are transferable in any amount not involving fractions of £1. Telegraphic address, Kalium, London. Telephone number, 9691 London Wall. In November, 1909, a resolution was passed reducing the liability on the ordinary share capital by £5 per share, which involved the cancellation of the unexercised powers of increasing the amount of the debenture stock from £450,000. As a consideration for the debenture stockholders' consent to a reduction of the liability on the shares the interest on the debenture stock was increased from 4 to 4½ per cent., while the dividend on the preference shares was increased from 4½ to 5 per cent. The authorised capital is now £2,250,000, of which £2,000 is in founders' shares of £10 each, entitled to one-half the surplus profits in each year after providing for dividends of 7 per cent. on the ordinary, and for reserve. Ordinary shares of £5 each for £750,000 have been subscribed, and £300,000, or £2 per share, paid up; 5 (formerly 4½) per cent. fully-paid cumulative preference shares of £10 each for £200,000 have been issued, having a priority as to capital, while they are limited in amount to the paid-up ordinary capital; and all the founders' shares have been issued and paid. For 1914 a dividend of 4 per cent. was paid on the ordinary shares entirely out of the ordinary shareholders' reserve, reducing that item to £7,889; in respect of that year there was a profit, before providing for depreciation, of £42,402, and after paying the preference dividend the balance remaining of £33,174 was placed to a suspense account to meet reduction in value of the investments of the corporation. No dividend was paid on the founders' shares for the fourteen years to 1914. In July, 1915, it was announced that "having regard to the depreciation in the prices of all securities, and to the uncertain outlook for the immediate future, the directors have decided not to pay the usual interim dividend on the 5 per cent. preference shares." In the report presented in January, 1915, it was stated that "the investments have been retained in the balance sheet at their value on December 31, 1913, or, in cases of purchases during the year 1914, at cost. The values have been reviewed by the directors, who have taken the mean prices of July 30, 1914, as a basis for the valuation of those investments quoted officially on the Stock Exchange, and in regard to those not officially quoted have used their best judgment as to values, and have been guided by the reports of the undertakings in which investments are held, and such other information as was available for that purpose. The directors intend to apply the sum of £33,174 to a suspense account to meet reduction in value of the investments of the corporation." Voting power, one vote for each share of any class. Melbourne City Properties Trust, Limited.—*Directors:* R. H. Caird, G. S. Pawle and G. Slade. *Secretary:* E. W. Gyton. *Office:* 201, Salisbury House, Finsbury Circus, E.C.—The company was registered under English laws on August 9, 1907, and under Victorian laws on September 25, 1907. McCracken's City Brewery, Limited, was formed in 1888 under the laws of the Colony of Victoria, to acquire a property situated in Melbourne, and in May, 1889, issued in this country through the National Bank of Australasia, Limited, and the Commercial Bank of Australia, Limited, £500,000 of 4½ per cent. first mortgage debentures, at the price of 95 per cent. In 1898 certain alterations were made in the status of the debentures, but in March, 1906, default took place in the payment of interest; that interest, however, was paid in April, 1907, while no distribution was made in respect of subsequent interest. In July, 1906, a committee of bondholders brought forward a scheme for dealing with the properties, and this was duly sanctioned, but it was not carried through until July, 1907. As from July 1, 1907, the brewing business of McCracken's City Brewery, Limited (which was placed in voluntary liquidation in December, 1907), and several other concerns in Melbourne, have been amalgamated under the title of Carlton and United Breweries, Limited, and in that company the Melbourne City Properties Trust, Limited, holds £157,875 of fully-paid shares. The remainder of the properties of McCracken's City Brewery, Limited, consisting of city and hotel freeholds in Melbourne, have been transferred to the Melbourne City Properties Trust, which has an authorised capital of £150,000 in shares of £1, power also having been taken to issue £200,000 of debenture stock, and all the shares and debenture stock were issued, credited as fully paid, to the debenture holders of McCracken's City Brewery, at the rate of £30 of shares and £40 of debenture stock for each old £100 debenture. The debenture stock carries 4½ per cent. interest, payable April 1 and October 1, and the principal is repayable by tender, drawings or purchases on the market whenever funds are available, but redemption is not to be effected at over par; by the purchase of stock in the open market for cancellation, the amount of the debenture stock outstanding has been reduced to £174,970. There was, also, at December 31, 1914, a loan of £32,500.

The accounts are made up annually to December 31, and submitted about May. Debenture interest of the Trust Company has been regularly paid. The first dividend on the shares was 1¼ per cent. for 1910; for 1911, 2½ per cent. was paid; and for 1912, 1913 and 1914, 3¾ each year (free of income tax). Carried forward, £3,244. In 1910 the book value of the properties held was written down by £352,612, thus extinguishing a suspense account previously existing in the books. Voting power, one vote for every share. Director's qualification, 500 shares. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in amounts of £1 and multiples. Telegraphic address, Melcitprop, Ave, London. Telephone number, 21 London Wall. The trust is quoted in the official list. Latest prices—shares, 7s.; debenture stock, 75.

Melbourne Real Estate Company, Limited.—*Directors:* W. S. Poole (Chairman) and F. E. H. Broad. *Secretary:* R. S. Paterson. *Office:* 25, Bucklersbury, E.C.—The company was registered March 11, 1903, to take over the properties charged as security for an issue of £400,000 debentures of the Real Estate Mortgage and Deposit Bank, Limited, now liquidated. The authorised capital is £40,000 in shares of £1, all of which has been issued, and there is income debenture stock for £50,775 (outstanding balance of £120,000), all the share capital, less the signatory shares, and all the debenture stock having been issued to the debenture holders of the Real Estate Mortgage and Deposit Bank, Limited. Under the original arrangement the income debenture stock was to receive 3 per cent. per annum, and any surplus then remaining was to be applied towards reducing the amount of the income debenture stock to £100,000; this was effected in 1911, largely through the sale of some of the company's properties, and now one-half of the surplus, or such less amount as shall be required, is to be applied in payment of further interest (beyond 3 per cent.) but not exceeding an additional

1 per cent. on the debenture stock, and the balance as dividend on the share capital. The principal of the income debenture stock is now only redeemable out of the proceeds of properties sold as the instalments become due, or from the realisation of the company's remaining properties or its investments, sums thus available to be applied to drawings at par, or by purchase by tender below par.

The accounts are made up annually to December 31, and submitted in May. The first dividend on the shares was 3 per cent. in respect of 1912; for 1913 a similar distribution was made; and for 1914, 3½ per cent. For the period to December, 1903, and for 1904, 1905 and 1906 the income debenture stock received 3 per cent. per annum; for 1907, £2 13s. 9d.; for 1908, 1909, 1910 and 1911, 3; and for 1912, 1913 and 1914, 4. Credit to income debenture stock interest account, £1,273; carried forward, £793. Voting power, one vote for each share or £1 of debenture stock. Director's qualification, none required. In November, 1907, income bonds of £10 each for £30,000 (part of £50,000 authorised) were issued; holders are entitled to 90 per cent. of the net profits and surplus assets of the company, the remaining 10 per cent. being divisible in equal moieties amongst the shareholders of this company and the shareholders of the Lower California Development Company, Limited, and the San Quintin Milling Company, Limited; the income bonds are irredeemable, except with the consent of the bondholders.

New Zealand Loan and Mercantile Agency Company, Limited.—*Directors:* W. Laing (Chairman), W. C. Dawes, H. J. Gibbs, V. G. M. Holt, A. M. Mitchison and A. Shepherd. *Secretary:* J. Brander. *Office:* 1, Coleman Street, E.C.—The company was first registered April 6, 1865, and in July, 1893, suspended payment. Reconstruction was at once taken in hand, and the present company was registered May 10, 1894. In 1897 another scheme of reorganisation was carried through in order to provide for estimated depreciation in the value of assets amounting to £2,500,000, and to bring fixed charges well within the earnings of the company; and in 1904 £10,000 of trustees' preference shares were exchanged into an equivalent amount of fully-paid ordinary shares of 10s. each. In 1912 another scheme of reorganisation came under consideration, but this was not carried into effect until 1913.

The main objects of the scheme of 1912-13 were to improve the position of the company by removing the anomaly of a debenture debt of £3,296,000, as against paid-up share capital of £135,000; and to relieve shareholders from the burden of the liability on the shares. Under the scheme the debenture and share capital of the company was divided into four classes—4 per cent. first mortgage debenture stock, 4 per cent. second mortgage debenture stock, 5 per cent. cumulative preference stock, and ordinary stock, the amount authorised being £1,000,000 of each. A call of £5 per share was made on the then ordinary shares of £9, making them £5 10s. paid, while the remaining liability of £3 10s. per share in respect of the uncalled capital was cancelled, and the paid-up share capital was then divided into £2 10s. of preference stock, and £3 of ordinary stock; the proceeds of the call were applied in redeeming prior lien debenture stock, which, with the surrender by the company of the amount of such stock held, reduced the total outstanding to £1,000,000; the old second mortgage debenture stock was not altered in status, but the amount was increased to £1,000,000, including £197,813 to provide additional cash capital, while £300,000 remains in the hands of the company; and third debenture stock holders received in exchange for their holdings 125 per cent. of new preference stock, and 50 per cent. of new ordinary stock. Moreover, towards the call of £5 per partly-paid ordinary share a special cash dividend out of the then existing reserves of 15s. per share was declared, which was credited in reduction of the liability; arrangements were made with certain guarantors to relieve shareholders, in whole or to the extent of one-half, who did not desire to pay up the calls on their shares, of this liability; and a special dividend (150 per cent.) was declared on the fully-paid ordinary shares, payable in new preference stock, or in new ordinary stock, or partly in one and

partly in the other. In connection with this reconstruction scheme the company absorbed a subsidiary concern called the New Zealand Land Association, Limited. The capital is now as under:—

£1,000,000 Four per cent. first mortgage debenture stock, with interest payable April 1 and October 1, while the stock is redeemable by purchase in the market, or by drawings at a premium of 2½ per cent., at any time at the company's option.

£1,000,000 Four per cent. second mortgage debenture stock (including £300,000 in the hands of the company), with interest payable April 1 and October 1, while the stock is irredeemable, except in the case of winding up, when it will be repayable at such a premium as shall be equal to the average premium recorded in the official list during the three years immediately preceding the winding up.

£989,200 Five per cent. cumulative preference stock, having a priority as to capital.

£834,314 Ordinary stock.

The accounts are made up annually to June 30, and submitted in December. For each of the four years to June, 1909, the then ordinary shares received 5 per cent., and for the three years to 1911-12 7½, while for 1911-12 the then third debenture stock received a further 2½ per cent. of nterest. For 1912-13, 1913-14 and 1914-15 5 per cent. was paid each time on the ordinary stock. Reserve account, £410,000; carried forward, £81,405, subject to any payment in respect of excess profits tax. The preference dividend is paid half-yearly. Voting power, one vote for every complete £10 of stock, preference or ordinary. Director's qualification, £1,000 of preference or ordinary stock. Transfer form, common; fee, 2s. 6d.; the debenture stocks are transferable in sums of £1 and multiples, and the preference and ordinary stocks in amounts and multiples of 1s. North Saskatchewan Land Company, Limited.—*Directors:* F. Walker (President, London), H. N. Baird (Vice-President), A. St. G. Hamersley, K.C., M.P. (London), L. Lorne-Edgar, L. Macfarlane and W. D. Ross. *Head Office:* Montreal. *London Office:* 4, Moorgate Street, E.C.—The company was formed under the Companies Act of the Dominion of Canada in March, 1911, to deal with agricultural land in Western Canada, and in the first place about 146,000 acres were purchased in the provinces of Saskatchewan and Alberta. The lands were originally purchased at an average of $11.70 per acre, plus interest, and the benefit of these contracts was acquired by the North Saskatchewan Company in consideration of the whole of the first issue of common shares as fully paid, and the refund of the actual deposit paid by the vendor syndicate. Subsequently a further 7,184 acres were purchased at an average of $12.41, making a total acreage acquired of 153,490. The authorised share capital is $5,000,000 in shares of $100, of which $2,250,000 was issued credited as fully paid, as stated above. With a view of providing the company with the money to pay for the whole of the lands in full, and about $150,000 as working capital, an issue was made in April, 1911, of £450,000 of 6 per cent. thirty-year sterling bonds, which were offered through Messrs. Hoare, 37, Fleet Street, E.C., acting as agents for the purchasers, at 97½ per cent., allottees being given a bonus of 30 per cent. of common shares, and in April, 1913, a further £25,000 was issued, making a total outstanding of £475,000. The bonds are of £100 and £20 each, form part of a total authorised of £1,000,000, of which the balance of £525,000 will only be issuable for the purpose of purchasing further lands, which are to be mortgaged as additional security for the bonds; the bonds are secured by a first mortgage upon the company's lands, have interest payable May 1 and November 1 (up to November 1, 1913, contingent on the net proceeds of realisation of property of the company being sufficient to meet the same), while interest is cumulative from November 1, 1912; the bonds are to be repaid November 1, 1941, any balance of the proceeds of land sold, over $2 per acre, to be paid over to the trustees for the bondholders (the National Trust Company, Limited, of Toronto) up to a sum equal to $16 per acre, together with all interest on unpaid instalments, such sums to be applied by the trustees, after payment of interest, to redemption of bonds either by purchase in the market at or under 105 per cent., or by drawings at that price. Moreover, the company reserved the right to redeem the whole or part of the bonds at any time, on three months' notice, at 105 per cent. Interest on the bonds was duly paid to May 1, 1913, all payments being made in London at the office of Messrs. Hoare, or in Canada, at Molsons Bank in Montreal, at the fixed exchange of $4.86⅔ to the £ sterling; interest due November 1, 1913, and since has not been paid. In June, 1914, a committee of bondholders was appointed, with offices at 2, Suffolk Lane, E.C., and since then the National Trust Company, Limited, of Toronto, has been appointed trustee for the bondholders, and also receiver of the company. In April, 1915, the bondholders' committee issued a report to the bondholders in which it was stated that, of the total acreage acquired of 153,490 included in the specific charge to the bond-

holders, 31,408 acres had been sold for $549,315, or an average of almost $17.50 per acre; on account of this $549,315 there had been received up to July 31, 1914, $185,561, together with $23,838 for interest on instalments, leaving a balance of $363,754 then owing, besides $22,707 of interest, and the security for the bondholders then consisted of 122,082 acres of land unsold, and the balance owing in respect of 31,408 acres disposed of. Other contracts entered into by the company for the purchase of nearly 29,000 acres of land are expected to be cancelled. At a meeting of the bondholders in London in May, 1915, authority was given to apply to the High Court of Saskatchewan for power to issue not exceeding £40,000 of receivers' certificates, secured as a first charge upon the company's property, and ranking in priority to the bonds—none, however (to November, 1915), have yet been issued. No accounts have recently been published by the company. The bonds are quoted in the official list.

Northern Securities Company.—*President:* J. J. Hill. *Office:* New York.—This company was incorporated under the laws of the state of New Jersey in November, 1901, to acquire by purchase or otherwise securities of any corporation of the state of New Jersey, or elsewhere, &c. Soon after organising for business the company offered to acquire (by giving its own shares in exchange) the shares of the Great Northern Railway Company, U.S., and the Northern Pacific Railway Company at the price of 180 and 115 per cent. respectively, and this offer was largely accepted. The authorised capital was $400,000,000 in shares of $100, and $395,402,643 was issued. Quarterly dividends at the rate of 4 per cent. were paid February 1, May 1, August 1 and November 1, 1902, and in February, May, August and November, 1903, and February, 1904, quarterly dividends at the rate of 4½ per cent. per annum were paid. In March, 1904, however, the United States Supreme Court decreed that the Northern Securities Company should not vote nor receive dividends upon the railway shares held. The directors thereupon decided to reduce the capital by 99 per cent., and to distribute, against each share, shares of the Northern Pacific Railway Company and shares of the Great Northern Railway Company, with certificates for participation in surplus assets. Certain of the holders of Northern Securities shares, however, disapproved of this mode of distribution, and litigation ensued, which was finally settled in April, 1905, in favour of the scheme as above. The distribution of Northern Pacific and Great Northern shares began immediately thereafter, and is now completed. Holders of Northern Securities received for each $10,000 of Northern Securities shares $3,887.73 of Northern Pacific shares and $2,986.83 of Great Northern shares, with a certificate for the balance of 1 per cent. of the Northern Securities capital. These certificates amount to $3,954,000, are commonly called "Stubs," and are dealt in in London per dollar.

The accounts are made up annually to December 31. For 1905, 1906 and 1907 a dividend of 5 per cent. was paid each year on the certificates as above; for 1908 4 per cent. was paid, the reduction in the dividend being attributed to the alteration in the dates for payment of dividends by the Crow's Nest Pass Coal Company; for 1909, 2½ per cent. (paid in the January following), no income having been received from the company's holding in the Crow's Nest Pass Coal Company in consequence of fires, &c.; for 1910, 4 (the Crow's Nest Pass Coal Company having resumed dividends); for 1911 (during which the Crow's Nest Company's collieries were shut down for about seven months owing to labour troubles), 3; and for 1912, 1913 and 1914, 2 (no dividend having been received in respect of the three years from the company's holding in the Crow's Nest Pass Coal Company, the net earnings having been applied to the reduction of its floating debt). After providing for the dividend for 1914 (paid in January, 1915) there was a surplus for the year of $18,784, increasing the credit to profit and loss to $2,591,631. At December 31, 1914, the company owned 14,963 shares in the Chicago, Burlington and Quincy Railroad stock, valued at $2,858,787, and 27,552 shares in the Crow's Nest Pass Coal Company, valued at $3,741,165, besides cash for $59,756.

Dalziel. *Office:* 46, Castle Street, Edinburgh.—The company was registered in June, 1888. In 1897 a reorganisation of the capital took place, £1 per share being written off the ordinary capital, and 5s. per share off the founders' shares, while power was obtained to issue £100,000 of preference capital, and to give the ordinary shareholders the option of reducing their liability by paying up £1 per share, receiving preference stock for the amount so paid. The subscribed capital is now £160,000 in ordinary shares of £4, with £40,000, or £1 per share, paid up (£2 per share being reserved liability); £180,000 in ordinary shares of £3, with £60,000, or £1 per share,

paid, and the balance reserved liability; £60,000 in preference stock; and £2,500 in fully-paid deferred shares of 6d. The preference stock is preferential as regards capital, and ranks first for dividends up to 7 per cent. (non-cumulative), but subject to the condition that 2 per cent. of the 7 per cent. shall be carried to a reserve, to be called the preference stock reserve, until such fund shall amount to a sum equal to 25 per cent. of the nominal amount of preference stock issued, and thereafter, so long as the fund is retained at that level, the full 7 per cent. is to be distributed; the total of the preference stock reserve fund has now reached the above-mentioned 25 per cent. of the amount of preference stock. The ordinary shares are then entitled to profits equivalent to 7 per cent. dividends, any portion of which may be placed to an ordinary share reserve fund, and any balance then remaining is to be applied—half to a general reserve until the total of the general reserve fund, plus suspense account (if any), shall have reached 25 per cent. of the paid-up share capital, and half in equal proportions between the deferred and ordinary shares, or the entire balance may be credited to general reserve, which belongs half to the ordinary shares and half to the deferred; the total of the general reserve fund now exceeds the above-mentioned 25 per cent. of the paid-up share capital. There are also—debentures bearing interest at from 4½ per cent. for £416,085; and 4½ per cent. debenture stock for £200,000, with interest payable May 15 and November 11, and the principal repayable (now) at any time, at the option of the corporation, at 105 per cent., on six months' notice.

The accounts are made up annually to August 31, and submitted in November. The debentures are to bearer, but may be registered as to principal at the company's office in London, at a charge of 2s. 6d. per debenture, and registered debentures may be reconverted into bearer, the charge being 2s. 6d. per bond. The company has been authorised to exchange any of the debentures outstanding for debentures printed in English and Russian, and payable as to principal and interest in Russian currency at the fixed exchange of 2s. $1\frac{3}{8}$d. to the rouble, but no such exchanges have yet taken place.

In 1914 the debenture holders agreed (subject to the interest on the debentures being guaranteed for a period of five years from September 1, 1913, by Mr. R. Gualino, one of the directors) that the company should be authorised to sell for cash or mortgage any part of the property charged under the trust deed without paying any part of the proceeds of such sale into the sinking fund, provided the net proceeds of such sale or mortgage are used for the development or improvement of the remaining property charged, or for the redemption of debentures. Interest due September 1, 1914, on the debentures was not met, and at a meeting of debenture holders in December, 1914, it was agreed to postpone the due date of the interest on the debentures which fell due on September 1, 1914, and all subsequent interest which shall become payable during the European war or within six months after its termination, as to one half of such interest until twelve months, and as to the other half until eighteen months after the termination of the war. The accounts are made up annually to July 13, and submitted in December. Attention has so far been directed to the general development of the properties, and no profit and loss account has yet been issued. Debenture interest has been paid to March, 1914, but, as stated above, interest due September 1, 1914, has not been met, and that payment, together with all subsequent interest payments falling due during the continuance of the European war, or within six months after its termination, have been postponed until after the termination of the war. No report has been issued by the company this year, but this notice has been officially revised. Voting power, one vote for each share. Director's qualification, 100 shares. The irrigation system was completed in 1913, and the land is suitable for the growing of cotton, alfalfa, and other crops, it being the intention of the company either to sell or lease the lands to other parties. The authorised share capital is $8,000,000 in shares of $100, all of which has been subscribed and is fully paid. In May, 1911, there was offered for sale by the Bank of Scotland, 30, Bishopsgate, E.C., on behalf of the owners, £1,200,000 6 per cent. first mortgage twelve-year bonds to bearer, of £20 and £100

each (part of £1,600,000 authorised), at the price of 99 per cent. Coupons are payable May 1 and November 1 (see below), and the principal is to be repaid on May 1, 1923, at 105 per cent., from a fund to be provided by the proceeds of the sale of all lands, after payment of administration charges and the interest on the bonds so far as it may not be met by other income, which fund will be applied to purchases of bonds in the market below 105 per cent. and accrued interest, while the company reserves the right to redeem the whole, or any part of the bonds, at 105 per cent. and interest at any time, on three months' notice. The bonds are secured as a specific first mortgage on all the lands of the company, and on the bonds and stock of the Irrigation Company. Allottees of the bonds received a bonus, equal to 20 per cent. of the bonds allotted, in fully-paid shares at par. Payments on the bonds have been made, in London—by the Bank of Scotland, as above—New York, and Toronto. The bonds are to bearer, but may be registered as to principal only and reconverted to bearer at the company's office in London, the fee being 1s. per bond for each transaction. At April 30, 1914, there were—loans, including interest account, for $2,624,520, part of which were secured by the issue as collateral of the balance of £400,000 of first mortgage bonds and £150,000 of 7 per cent. promissory notes; and vendors' lien notes on land purchased, amounting with accrued interest to $96,311.

The accounts were made up annually to April 30, and submitted in Toronto in August. Only a small portion of land has been sold, and the company needs funds for the carrying on of the irrigation works and other development operations. Bond interest was duly met to November 1, 1913, but default took place on May 1, 1914, and no later interest payments have been made. The company is now in the hands of a receiver, and, efforts to arrange the financial difficulties having failed, the company itself has filed a voluntary bankruptcy petition at the United States Federal Court in New York.
